## RODGERS IN CALIFORNIA TOWN

Aviator Makes Record-Breaking Flight Over the Arizona Desert

Birdman's Actual Flying Time Across Continent Is Less Than Four Days

PASADENA, Nov. 3.—In a long distance telephone message from Imperial Junction this afternoon, Aviator Rodgers stated that he expected to reach Colton tonight; would make a late start from that city tomorrow and arrive here between 3 and 3:30 o'clock tomorrow afternoon.

IMPERIAL JUNCTION, Nov. 3.—Calbraith P. Rodgers, the trans-continent flyer, arrived here at 10:27 a. m. today, 184 miles from the finish of his ocean-to-ocean flight, which began at Sheepshead Bay, New York, September 17. Engine trouble brought him down, but not until he had established what is believed to be a new world's record in aviation.

He flew 133 miles from Stovall siding, Ariz., the desert water tank, where he was forced to spend last night in 125 minutes, and used fifteen gallons of gasoline. Rodgers started out to fly the entire 317 miles from Stovall siding to Pasadena without a stop, but when he arrived over this place his motor was "missing" badly and he was forced to alight.

His mechanicians arrived shortly afterward on the aviator's special train from Yuma, and went to work on the motor at once, but it was stated that the engine was in such condition that it would be impossible for Rodgers to make Pasadena before tomorrow afternoon. It is possible that his arrival may be further delayed until Sunday. However, Rodgers stated that he would do his best to cover the remaining distance by tomorrow.

YUMA, Ariz., Nov. 3.—Aviator Rodgers passed over Yuma at 8:25 o'clock this morning, flying high and fast. Apparently he intends to try to make his coast goal without another stop, although the distance to Los Angeles from Stovall siding, where he spent the night, is 317 miles.

The exact time Rodgers left Stovall is not known, but he passed Mohawk Valley, seven miles east of the siding and 60 miles east of here, at 7:32 a. m. The special train which carried a supply of gasoline to the aviator from here last night is expected to return this morning, bringing his mechanicians, who will continue on to White Water, Cal., 200 miles from Los Angeles.

Up to this point Rodgers has covered 2963 miles since he left Sheepshead Bay, in an actual flying time of 4633 minutes, or 77 hours and 13 minutes. These figures on a 24-hour calculation give three days, five hours and thirteen minutes for the distance, or an average of 51.3 miles an hour.

## Steamer Sinks Suddenly While Crew Is Sleeping

SEATTLE, Nov. 3.—The old wooden steamer Fairhaven, plying between Seattle and Puget Sound ports to the north, sank suddenly at her pier in this city early today. Her mooring ropes prevented her from going to the bottom and the cables passed under-

neath her held so that it will be possible to raise her. The crew had been asleep only two hours when the cry of danger sent them flying to the deck. The vessel is valued at \$30,000. Damage to cargo and boat will be less than \$5000, it is expected.

## SHANGHAI TAKEN BY REBELS

Bloodless Victory Gained, as No Resistance Is Made by the Authorities

Wealthy Province of Yuen-Nan on the Thibet Frontier Declares Independence

WASHINGTON, Nov. 3.—Yuan Shi Kai has resigned the office of the premier of China. His reasons for so doing are not made public. The three last issued an edict proclaiming a new constitution demanded by the National Assembly on the lines of the English governmental system, according to advices received here.

SHANGHAI, Nov. 3.—The arsenal and the native city of Shanghai were taken over by the revolutionists late this afternoon. No resistance was offered by the authorities nor by such of the public as remains loyal.

It is expected that Wu Sung, at the mouth of the Wu Sung river, and ten miles north of Shanghai, and the upriver forts will fall tonight. It is confidently believed that Nanking and Ching Kiang will be captured by the rebels tomorrow.

Some of the foreign warships landed marines in this city before the rebels took possession. Foreign volunteers were called out and have taken every precaution to protect the concessions.

It is reported that the rebels at Kiu Kiang have seized the British tugboat Sampson.

### REBELS IN CONTROL

It became evident early in the afternoon that the revolutionists purposed to assume control of affairs here within a short time, though it was not thought they would occupy the arsenal before night. As the day progressed the revolutionary flag was hoisted over all the buildings in the vicinity of the arsenal and thousands wearing on their arms the white band, insignia of the constitutionalists, gathered in the street.

The police and native soldiers made no attempt to interfere; on the contrary, fraternizing with the insurgents. The total, realizing the inevitable, caused notices to be posted stating that the native city might be taken over by the revolutionists tonight and expressing the hope that the public would not be thrown into a panic and that the shops selling food should not be closed except at the usual hour.

### CROWDS GROW EXCITED

At 5:30 o'clock all telegraph and telephone communication with the arsenal was cut off. The rebel throng grew to greater proportions and in the natural excitement a number of shots were fired by the government forces in the direction of the mob, but these were without effect and it was plain that the Chinese soldiers, the police and the native volunteers were all in sympathy with the rebels. At this point the arsenal and the arsenal and native city quietly capitulated.

Complaints reached this city today that the rebels holding the forts below Kiu Kiang have been firing indiscriminately at steamers passing that city in the night time. The latest ad-

## WHOLESALE MURDERS FEARED

Police of Chicago Seek to Fasten Eight Mysterious Deaths on Woman

Two Husbands, Children and Roomers Die While Living in Her House

CHICAGO, Nov. 3.—President Russell Haines of Rush College reported to Coroner Hoffman today that he had found abundant arsenic in Policeman Arthur Bissonette's liver to cause death.

Immediately after the announcement that Bissonette's death was caused by poisoning, Chief of Police McWeeney prepared to swear out a warrant for Mrs. Louise Vermilya, charging her with the murder of Arthur Bissonette and Richard Smith.

The first thread in a poison mystery that the police say is likely to reveal a series of murders more wilful and cold-blooded than any in police history here was unraveled today, with the announcement that Bissonette had been poisoned. Bissonette died suddenly a week ago, after becoming ill at the home of the widow, Mrs. Louise Vermilya, with whom he boarded. The examination of his viscera showed arsenic in more than sufficient quantity to cause death.

Eight other deaths within the last few years of persons related to or closely associated with Mrs. Vermilya were recalled by the police.

Chief of Police McWeeney announced that warrants for Mrs. Vermilya had been issued, but she will not be removed from her home until tomorrow on account of illness.

Other deaths were:

Frank Brinkamp, first husband of Mrs. Vermilya, left \$5000 to the widow.

Charles Vermilya, second husband, died two years ago, leaving \$2000.

Frank Brinkamp, son by first marriage, died a year ago, leaving mother \$1200.

Harry J. Vermilya, stepson, died a year ago after a quarrel with his stepmother over the sale of a house.

Lillian Brinkamp, granddaughter of Fred Brinkamp, died 1906 at home of Mrs. Vermilya.

Richard T. Smith, died a year ago while rooming at her home. Reported to have left her \$2000 life insurance, and declared by some to have been a third husband.

Cora Brinkamp, daughter, died when 8 years of age at former home, Barrington, Ill.

Florence Brinkamp, daughter, 4 years of age, died at Barrington.

## TO ADD TO VALUE OF BONDS

City Commissioners Ask for a Change in Postal Savings Bank Regulations

Resolutions Introduced by Councilman F. C. Turner Are Passed

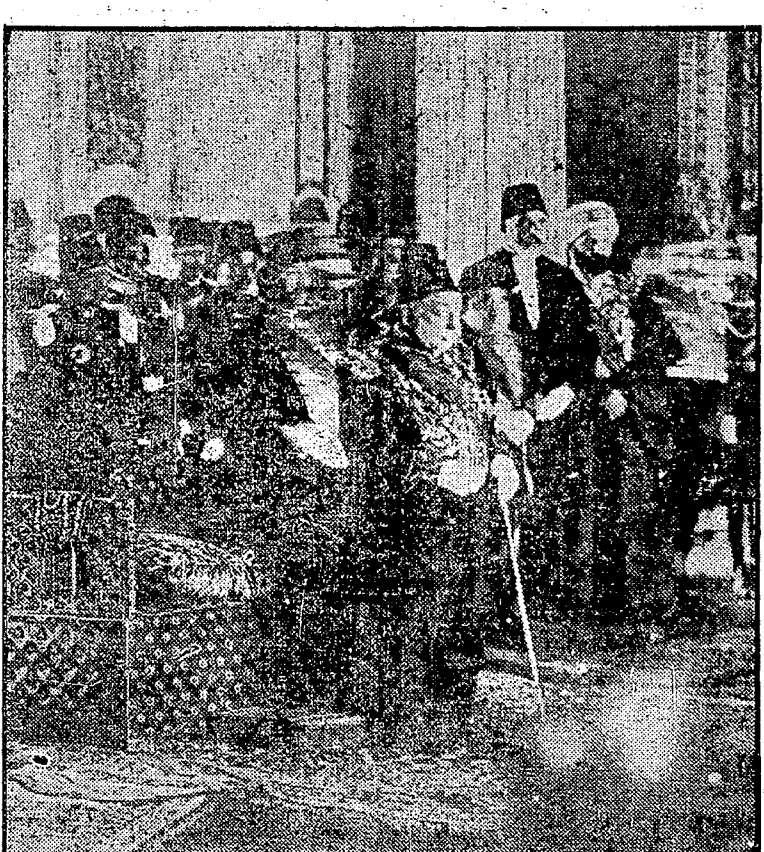

Modification of the regulations governing the postal savings depositories of the United States in regard to the acceptance of municipal bonds as security for loans is asked in a resolution passed by the city council this morning at the instance of Commissioner of Public Health and Safety Fred C. Turner. The amendment would make municipal bonds more acceptable to all banks, and it is probable that the lead taken by Oakland will be followed by all California municipalities and the municipalities of other cities with bond issues to dispose of.

The modification would affect that section of form PS 2, passed by the board of trustees of the United States postal saving system in January of this year, which requires that a

The commander considers he will be able to occupy several islands of the Grecian archipelago or blockade the Dardanelles, make a naval demonstration before Salonika and Smyrna or bombard the fortifications at any point advisable.

## German Assurances Hoodwinked Turks

LONDON, Nov. 3.—The Daily Telegraph's Constantinople correspondent says a sensation has been caused by the revelation of Nakka Bey, the ex-grand vizier, who, if impeached for the defense of Tripoli, will declare that the German ambassador repeatedly assured him Italy would never send a regiment or a ship to Tripoli. For that reason his cabinet had not considered it necessary to dispatch troops or war material to Tripoli.

## SEEK TO CHANGE BANKING RULES

Commissioners Want Uncle  
Sam to Lift Lid On  
Bonds.

(Continued From Page 1.)

municipality's bonded indebtedness shall not have exceeded 10 per cent of the valuation of the taxable property if the bonds are to be stamped as acceptable by the postal savings banks as security for loans.

The constitution of the State of California permits the municipalities to go as high as 15 per cent of the assessed valuation in issuing bonds, and the Turner resolution asks that the board of trustees of the postal savings bank, consisting of the postmaster-general, the secretary of the treasury and the attorney-general, shall amend the regulations to conform with the general practice in California and other states in this matter.

At the present time municipal bonds, which are splendid security, are not as desirable as they should be on account of this limitation, and, as a consequence, banks which would otherwise readily bid on the municipal bonds fail to do so. The regulations of the board of trustees give the board the power to accept from local banks security in municipal bonds for loans to the banks.

As the California municipalities must increase the bond indebtedness to the state limit, which is 5 per cent above that set forth in the regulations of the board of trustees of the postal savings system, the municipal bonds deposited with the postal savings would then not be good under the regulation.

TURNER'S EXPLANATION.

Commissioner Turner explained the need of the change as follows this morning:

"The matter of using municipal bonds for postal savings funds collateral occurred to me a year or more ago. It came to my attention through some newspaper article that the act, as I then thought, had limited the bonds that were acceptable to those of cities having not more than 10 per cent bonded indebtedness, while the limit for California is 15 per cent, under the constitution of the state. Of course, most of the California cities have not reached anything like the 15 per cent allowable, but a savings bank is unlikely to wish to purchase California bonds for use as collateral for postal deposits as long as there is a chance that the bonds will be exceeded and the deposits, in consequence, withdrawn from the local bank.

"In the case of Oakland, for instance, it is not impossible that we may build a new water works plant, thus very soon reach the 15 per cent limit. In the case of Los Angeles, that city, I believe, is already above the 10 per cent limit, and yet the bonds are just as good as if there was smaller bonded indebtedness because the municipality is using them for constructing a self-supporting water plant.

"I spoke to Congressman Knowland just before the last session of Congress in regard to this matter, and he asked me to write to him about it, but I did not do so, as I later discovered that it was a matter not for Congress, but for the board of trustees of the postal savings banks.

"Of course, for the present the amount of savings deposits is not very large, but it is possible that they will grow, and unless the Federal authorities working with a view to making the fund create a market for the Panama canal bonds, and, therefore, do not wish to have the competition with other public bonds, there is no reason why the change should not be made and operate to get better prices for the sale of municipal bonds in California. In any case, no harm can be done in making the application, and it seems to me it should be easy to get the help of other California cities to the same end."

### RESOLUTION ADOPTED.

The text of the resolution passed this morning follows:

Resolution requesting city attorney to draft a petition to board of trustees of postal savings banks, requesting that said board modify its ruling relating to municipal bonds as security for postal savings deposits.

Whereas, The act of Congress establishing postal savings banks provides for a board of trustees, with full powers as regards the conditions upon which postal savings banks may be loaned to savings banks; and

Whereas, Said board of trustees has provided that municipal bonds of a city "whose net funded indebtedness does not exceed 10 per cent of the assessed value of its taxable property, to be ascertained by the last preceding valuation for the assessment of taxes, will be received at 75 per cent of their market value, such market value not to be considered as exceeding par"; and

Whereas, The constitution of the state of California allows of municipal bonded indebtedness to the extent of 15 per cent of the assessed valuation, and therefore a banker wishing to obtain municipal bonds to secure said postal savings bank deposits is likely to fear the withdrawal of said deposits in a case the city whose bonds he should purchase should increase its bonded indebtedness beyond 10 per cent; and

Whereas, Therefore, said regulation limiting bonded indebtedness to 10 per cent acts to make the bonds of California municipalities undesirable for the use of securing said postal deposits, and thus tends to not broaden the demand for such bonds as otherwise would be the case; therefore,

Resolved, That this council request the city attorney to draft a petition to the board of trustees of the postal savings banks, requesting said board to modify its ruling by raising the limitation of such bonded indebtedness to 15 per cent for cities having an assessed valuation of not less than 100,000, according to the last preceding Federal census and having an assessed valuation of not less than \$75,000,000.

## CORDES HELD TO ANSWER BY COURT

Must Explain Why He Has Not  
Paid His Wife  
Alimony.

Robert Cordes Jr., who was arrested yesterday in the St. Francis hotel in San Francisco on the charge of failure to pay \$100 per month alimony to his wife, Florence L. Cordes, and who is alleged to be in arrears to the extent of \$1000, must appear before Superior Judge Harris on November 10 and explain to the court his delinquency.

Cordes was arrested upon a citation issued by Judge Harris. His wife sued for divorce just one year ago and an interlocutory decree has not yet been entered. The complaint was referred to the court commissioner. Mrs. Cordes alleges that her husband has an income of \$1000 per month and that he is worth more than \$50,000.

Annie Williams declared in her suit for divorce filed late yesterday that her husband, John, had refused to support her and that when she went out and obtained work he bothered her to such an extent that her position was threatened.

Grace F. Wells obtained an interlocutory decree from George F. Wells sometime ago and yesterday Wells appeared before Judge Harris and had the decree made final.

Neulah Williams obtained a final decree from Otto Williams on the grounds of desertion. Annie C. Hewitt, from Louis C. Cruikshank and Flora B. Turner from Charles Turner for desertion.

## GIRL SAYS SHE WAS ATTACKED

SAN FRANCISCO, Nov. 3.—Following a somewhat sensational charge preferred by Miss Emma Reed of 3306 Seventeenth street, yesterday, a warrant was sworn to this morning for the arrest of James E. Brooks, a wealthy realty dealer of 428 Laguna street.

Reed charged that during the progress of a taxi cab ride night before last, she was attacked by Brooks, who attempted to kill her, and so terrified her that she left the car and went home.

Together with another couple Brooks and Miss Reed had visited a downtown cafe and from there had gone to visit an "oriental resort on Pacific street. It was while en route that the alleged attack occurred, according to the young woman.

He wrote to his wife that he was going to the mountains to "cool off." He has not been heard from since. The authorities learned of his being missing only when Mrs. Faxon wrote asking aid in finding her husband.

## RIOT CALL SENDS POLICE TO WEST OAKLAND YARD

A riot call was sent in to the police headquarters shortly after 1 o'clock this afternoon from the neighborhood of the West Oakland yards of the Southern Pacific company, as it was stated that a number of union sympathizers had surrounded a strike breaker from the yards. Captain Walter J. Petersen with a posse of police, consisting of Patrolman Cherry, Captain Bock, Detective McSorley, Captain Brown, W. J. Emigh and Patrolman Summers, proceeded to West Oakland in the police automobile, where they found Patrolman Tillison and Rheinhardt guarding in front of a drug store in which a Greek machinist, employed by the Southern Pacific company, had taken refuge. The Greek had been pursued for several blocks by a large crowd, and finally had taken refuge in the store at Seventh and Wood streets. The mob was dispersed and the Greek escorted to a train for San Francisco.

## 25 YEARS' AGONY ENDED IN HURRY

Oakland Man, Rheumatism  
Victim for Quarter Century,  
Finds Quick Cure.

Breaks Remarkable Record  
Already Established for  
New Treatment.

Rheumatism of 25 years' standing cured in two weeks by the new uric acid treatment which is being introduced here was the startling story told yesterday by Mr. Samuel Ball, who lives at 1051 Market street, Oakland. This adds another chapter to the many experiences of a similar nature with this new method of treatment which have been related recently in the bay cities.

In discussing his experience Mr. Ball said:

"I think my case is the most remarkable that has been told yet on the Pacific coast. I had rheumatism in its worst form for 25 years and was considered absolutely incurable, but this new uric acid treatment has cured me entirely in almost no time. I think the way these medicines act is wonderful, and the discovery of how to cure rheumatism the greatest thing that has happened in the present century."

"I used to lie awake nights with the pains I suffered. All of my joints were stiff and swollen, and I suffered most severely down the back of my hip and in the sciatic nerve. I doctored and doctored, but nothing seemed to give me any real help or benefit. Then I heard about the great work that was being done by this new uric acid treatment which Professor Munyon is introducing here. A friend who had been cured induced me to go to Munyon's offices, and I got the treatment from one of his physicians. It has cured me entirely, simply cannot express my gratitude."

Munyon maintains offices with expert physicians in charge to give free advice to the sick in Oakland in the Macdonough building, Broadway and Fourteenth street, in San Francisco at 703 Market street, and in San Jose in the Phelan building, 53 South First st.

## FEAR OF PLAGUE IN CANAL ZONE PASSES

WASHINGTON, Nov. 3.—Since the appearance of a case of bubonic plague in the isthmian canal zone last month, fear that the dreaded disease might obtain a foothold there has caused considerable uneasiness. Rigid precautions were taken, however, and as the period of development of the disease has now expired it is declared by the physicians that there is no possibility of the plague spreading from this case. H. T. Bolton, who had just returned to the isthmus from Ecuador, died at Ancon hospital from the plague, October 17.

## Common Sense

Leads the most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle-wrappers and attest its correctness under oath, are daily growing in favor. No Secrecy. No Deception.

The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized.

Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle-wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unequalled endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials although the latter are received by thousands.

Don't accept a secret nostrum as a substitute for this time-proven remedy or known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood.

World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

## ELEVEN MEN IN JURY BOX AT M'NAMARA TRIAL

Session That Begins Listlessly Takes on  
Appearance of Activity; Wrangle  
Over Twelfth Man

LOS ANGELES, Nov. 3.—The McNamara murder trial dangled for hours today on the edge of a jury completed as to cause. With eleven men in the box, opposing counsel wrangled over H. V. Blenkiron, a real estate dealer, who might make the twelfth man, until Judge Walter Bordwell, roused from his usual dignity, ordered them repeatedly to be quiet.

LOS ANGELES, Nov. 3.—With one more juror accepted as to cause by both sides soon after court opened today in the McNamara trial, prospects for a full jurybox before close of court appeared excellent.

Byron Lisk, a Pasadena mill owner, was the eleventh man chosen. H. V. Blenkiron, a real estate dealer, the only other spokesman in the jurybox not accepted, was examined as soon as Lisk had been passed. Only one venireman, W. H. Andrews, remained outside the box, and it was expected that if neither Andrews nor Blenkiron were accepted court proceedings might be suspended until more talesmen could be secured.

Blenkiron was accepted by the defense after less than five minutes examination by Attorney Clarence S. Darrow, chief of counsel for the defense.

Both sides came into court prepared to exercise peremptory challenges against jurors accepted as to the cause whom they believe would not make fair jurors to try James B. McNamara for the murder of Charles J. Faggerty, who was killed in the explosion which wrecked the Times building October 1, 1910.

It was expected that not more than three or four jurors at the outside would be left at the conclusion of this progress. Two talesmen, George W. McKee and F. D. Green, were ill and received medical treatment last night, but were reported recovered today.

In the fourth venire, which is summoned to appear tomorrow, occurs the name of Henry Chandler, son-in-law of General H. G. Otis, proprietor of the Times. Chandler is vice-president of the Times-Mirror company, which publishes the paper.

Another name is that of Colonel Allen Allensworth, former command of a volunteer regiment and a leader among the colored population of Los Angeles.

TRIAL IS LISTLESS.

Within striking distance of reaching a panel of twelve talesmen against whom both the defense and prosecution

aimed to direct a first broadside of peremptory challenges, the McNamara trial went listlessly forward today in the protracted process by which it is hoped to obtain a jury about Yuletide.

Incidentally Attorney Darrow smilingly passed along to the newspaper men today some of the anonymous letters he has been getting, taking issue with him for desecrating the remains of his brothers, who are under nineteen indictments for the death of a score of people as a result of the explosion in the Los Angeles Times building a year ago.

Among them was a clipping about "Moss" Enright, a labor leader convicted in Chicago of murder, and with it was a letter telling Darrow that he was defending that sort of men in the McNamara trial. Attorney Darrow regarded the missives as the work of cranks, always busy during big criminal cases.

McNAMARA AND JURORS.

With the jury box containing nearly the requisite dozen before the peremptory challenges were in order, gossip among the lawyers in the courtroom turned toward the conspicuous figure of James B. McNamara, the defendant, and it was a foregone conclusion that the custom observed in many criminal cases of having the prisoner stand before the talesmen and personally exercise his right of peremptory challenge would not be witnessed here. McNamara has given over the burden of the case to his attorneys, and though alert to proceedings of interest, he hardly has concentrated on the tedious examinations during which his attorneys have been battling to disqualify talesmen who might be prejudiced against the prisoner for reasons of his membership in a labor union or their belief in his guilt founded on the multitude of newspaper stories concerning the cause of the explosion. And James B. McNamara daily appears carefree and content.

A typical scene in which he figured was that of today when the prisoner stood just outside the courtroom looking down dizzy heights to the street below where a squad of attorneys and the usual crowd formed a procession to the tall white structure known as the Hall of Records, where official business of the county is transacted. As the attorneys mounted in the stop-at-every-door elevator, each operating by a Barker who glibly dropped the names of the various offices of tax collectors, recorders and courts, McNamara stood in an anteroom and smoked while a deputy sheriff looked on. Some local men strolled in and he greeted them freely.

"By the way," remarked one of the visitors to the prisoner, heedless of the scowling deputy sheriff, "we need a printer at our shop, and since you are out of a job, drop around tonight and see the boss."

"Certainly," replied McNamara, lightly, "that's my trade, but I'm a bit busy with the trial at present. But it won't be long before I can take you up on a proposition like that."

McNamara firmly believes he will be a free man soon and that his brother John J., secretary of the International Association of Bridge and Structural Iron Workers, who is awaiting trial on similar indictments, will join him not long after. He has absolute confidence in the ability of his attorneys to win the case for him and says he is not worrying.

FEW VENIREMEN.

Judge Bordwell had a new venire empaneled today, but which was opened only one venireman remained from the venires thus far used. It was expected that today's proceedings would be cut short by the exhaustion of veniremen with whom to fill the box. In the jury box were three, including the session began: W. N. Frampton, G. W. McKee, Frank Frakes, Sam Mendonhall, G. W. Johnson, Robert F. Bain, Seaborn Manning, F. D. Green, W. L. McNeil, and A. C. Winter, all of whom have been examined by both sides for cause and are ready for the peremptory challenge process, and Byron Lisk and H. V. Blenkiron, the examination of whom was to be concluded today.

W. H. Andrews was the only venireman available in case Lisk or Blenkiron were disqualified and it was apparent that unless the interrogation of the two defense talesmen was something unusual in the way of a contest on challenges the session would not be a long one. The sheriff was hardly expected to gather the new veniremen in time for examination today and it was thought an adjournment until Monday might be taken.

Slight illness attacked both Talesmen George W. McKee and F. D. Green during the night and physicians treated them for indigestion. They were in the jury box when the court convened at 10:10 o'clock and appeared to have recovered.

The first proceeding was the passing by LeCompte Davis of the defense of Talesman Byron Lisk for cause. District Attorney Fredericks began cross-examination and after a few peremptory questions also passed Lisk. This moved eleven talesmen passed by both sides.

It was said by one of the attorneys before court convened that all but two of the twelve talesmen secured when the box was filled would be excused by peremptory challenges. The examination of Talesman Blenkiron, a real estate dealer, by the defense followed.

NOT INTERESTED.

Blenkiron said he never had been especially interested in unions. He declared he neither had an opinion as to the cause of the explosion nor as to the guilt or innocence of the defendant.

Blenkiron was passed for cause by Attorney Darrow of the defense. "Are you sure you are on the assessment roll?" asked Judge Horton of the State in examining Blenkiron. "I'm not sure."

"Did you not make an affidavit in August stating that you had no property?"

"Yes."

Horton produced a folio of type-written manuscript, being a record of a recent civil case in which Blenkiron figured. He identified his signature on the affidavit attached. It developed that Blenkiron's name was on the last assessment roll as required by statute for service as a juror, but a question arose as to whether he owned any property at the time.

Attorney Horton became involved in a tangled examination on this point. A rapid fire of objections came from the defense. The court became irritated at the tangle and once when Attorney Horton launched into an argument, Judge Bordwell broke in with a stern "wait a moment!" The judge repeated this phrase three times, raising his voice each time until he halted the speaker.

Court recessed at noon with Blenkiron still under examination.

## CONGRESS TO BE ASKED FOR RELIEF

Army Officers Are Threatened  
With Having to Pay for  
Forest Fire Work.

WASHINGTON, Nov. 3.—Congress is to be asked to relieve army officers who were ordered to give aid in combating the disastrous forest fires in the Northwest during the fall of 1910, and who are threatened with having to pay from their own pockets approximately \$28,000, which they expended in transporting troops to the scene of the fire.

The auditor of the war department ruled that these funds had been improperly charged, and when the department of agriculture was appealed to, that department refused to allow the account to be paid out of the forest service funds. Quartermaster General Alesha has recommended that Congress be asked to authorize payment of the money.

SAN FRANCISCO, Nov. 3.—Andrew F. McFarland is being examined this afternoon in Judge Weller's court in connection with the charge of stealing \$10,000 preferred against him by Miss Ethel E. Groom, who he married while he had a wife living in the East. The money taken, it is alleged, was a part of a wedding present given to Miss Groom, who believed herself McFarland's lawful wife. The accused man is a well-known broker and when arrested in Colorado was in company with wife No. 1.

## Honest Advice to Consumptives

Somehow there exists a vast amount of skepticism as to the possibility of curing consumption. We state none but facts, and are sincere in what we assert. If ourselves afflicted with tuberculosis we should do precisely what we ask others to do—take Eckman's Alternative promptly and faithfully. The reason should do this and warrant we have for asking all consumptives to take it is that we are not making money of many cures, one of which follows:

"1919 Susquehanna Ave., Philadelphia, Pa. Gentlemen: For two years I was afflicted with hemorrhage of the lungs, the number totaled nearly one hundred. Our family physician advised another climate, as to remain would probably be fatal; however, I remained and in February of 1902, I was taken with a severe attack of pneumonia. When I recovered sufficiently to walk about the house I was left with a frightful hacking cough, which no medicine I had taken could alleviate. I was again advised to go to another part of the country. It was at this time, March, 1902, that I learned of Eckman's Alternative. In a short time my cough was gone and I was pronounced well 'I cured.' Since that time I have had two slight attacks of pneumonia and I have resorted to no other medicine but Eckman's Alternative. I am at present in excellent health and feel that as long as I can obtain Eckman's Alternative I have no fear of consumption. I can speak too highly for the good it has done."

(Signed) HOWARD L. KLOTZ, Eckman's Alternative is effective in bronchitis, asthma, hay fever, throat and lung troubles, and in rebuilding the system. Does not contain poison, opiates or habit-forming drugs. For sale by Owl Drug Company and other leading druggists. Ask for booklet of cured cases and write to Eckman Laboratories, Philadelphia, Pa., for additional evidence.

STANFORD AND U. C.  
DEBATERS TO MEET

STANFORD UNIVERSITY, Nov. 3.—This evening the nineteenth intercollegiate debate takes place in the Stanford assembly hall. Of the long series of debates California has won ten, while Stanford has taken eight.

The men who will represent Stanford have trained long and faithfully for this event. They are W. E. Simpson, W. E. Owens and P. L. Higgins, with C. C. Bates as alternate. None of these men have ever made an intercollegiate team before.

The question reads: "Resolved, the Judges Should Be Exempt From Recall," and the Cardinal speakers are to take the negative side.

The California trio are H. H. Phleger, T. B. Kittredge and L. E. Goodman, with D. Stephens as alternate. The judges for the contest are Fairfax Wheelan of San Francisco, Rev. Father Joseph Gleason of Palo Alto and Prof. F. C. Woodward of the law department.

CIGAR CHECKS BARRED  
IN REFORMED SOUTH

LCS ANGELES, Nov. 3.—Bartenders or tobaccoists who accept checks for drinks or cigars, in the future, will be prosecuted, according to an order issued yesterday by the Police Commission. The merry rattle of the "bones" will be heard no more in front of saloons, cigar stands and poolrooms, since checks have been the only medium of exchange in connection with the dice games.

Under an opinion of the City Prosecutor, a man who feels the desire for a glass of lager and has nothing but a celluloid bottom or a pewter disk in his pocket will have to find a way to pay or go thirsty. Gambling for money or cigars with dice was stopped long ago, and now the dice themselves must be put away.

WHY DO THEY DO IT?

"Why people should weep over the imaginary sorrows shown on the stage, when there is so much real sorrow in the world, I never could understand," says a well known writer. And it is just as hard for us to see why people will suffer needlessly for months or years. Here is the case of M. Carter of South Akron, O., who says:

"For two years I was in a badly run-down condition, felt weak and miserable and lost considerable flesh. Then I heard that Vinol was a great thing to build up the body and create new strength.

"Now, after taking Vinol and getting so much good from it I have decided to write and tell you that it has made me strong and well again, and I have gained in weight, too."

If you are weak and sickly, need new strength, a better blood, take Vinol, our delicious cod liver and iron remedy, for depend upon it, that is what you need and it will build you up. We guarantee it—money back if you are not satisfied. The Owl Drug Co., Oakland, Cal.

FARMERS AWAITING  
DEMONSTRATION  
SPECIAL

Annual Junket of Train Will Be  
Started in About  
Two Weeks.

COMING IS REGARDED  
AS EVENT OF MOMENT

Fourth Annual Journey of the  
State Demonstrators On  
November 13.

Farmers, vineyardists, orchardists, stock-men, poultry-men, bee-keepers—in fact, every resident, male and female of rural California, will be interested in the announcement that the annual demonstration train of the Southern Pacific Company and University of California, will start on its fourth tour of the State on November 13, leaving Sacramento at 7:30 o'clock in the morning and holding its first meeting at Lincoln, Cal., commencing at 9 the same morning. The initial trip contemplates a ten days' absence and includes stops at thirty-one communities in Northern California.

The make-up of the train—which will be in charge of experts from the agricultural college of the University, and from the State Farm at Davis—will consist of six passenger coaches, given over to exhibits; a sleeper, a diner, and a baggage car for the accommodation of the train crew. The passenger coaches contain samples of various grain, fruit and vegetable crops, together with interesting displays of others State products which can not fail to engage the attention of the up-to-date grower and producer.

FOURTH JUNKET.  
This will be the fourth annual junket of the demonstration train, which has accomplished a great work in the education and advisement of the California farmer. During the season of 1908-09 the train covered 2608 miles, attracting 57,270 persons to the 239 meetings held. In 1909-10 the trip was extended, 2438 miles, covered, 222 meetings held and 73,668 persons entertained. In 1910-11 the train visited Owens Valley in addition to the regular districts—4020 miles were covered; 225 meetings held and 76,336 persons entertained.

The expenses of the demonstration train, outside of the installation of the exhibits and the salaries of the experts, are borne entirely by the railroad company, the amount set aside for this purpose being approximately \$10,000 a year, not counting wear and tear on equipment. The discussions include practically every subject of interest to the growers and stock-men, with lectures on the latest practical improvements in the farming world.

MANY STOPS PLANNED.  
The towns to be visited on this first trip, together with the dates, are as follows: November 13, Lincoln, Wheatland and Marysville; November 14, Oroville, Bogus and Knight's Landing; November 15, Live Oak, Gridley (two lectures) and Biggs; November 16, Chico, Vina and Los Molinos; November 17, Red Bluff, Anderson and Redding; November 18, Dunsmuir, Yuba and Woodland; November 19, Marysville; November 20, Montague, Gazelle and Edgewood; November 21, Corning, Hamilton and Orland; November 22, Germantown, Willows, Maxwell and Williams; November 23, Arbutus, Dunnigan, Yolo and Woodland. Later in the season trips will be made to the Colfax district; San Joaquin and Owens valleys; Placerville; Southern California, including Imperial Valley; the Coast Line northward from Los Angeles, and the bay coast, northward from Santa Clara and San Jose. A big attendance is expected.

FRIDAY NIGHT  
CLUB GIVES AN  
ENTERTAINMENT

CLARENCE MCCARTY.

The benefit entertainment given by the Friday Night Club of North Oakland, on Wednesday and Thursday nights, at the Lorin theater, South Berkeley, was a huge success, both socially and financially, fully 2000 people attending.

It was held for the benefit of the clubroom fund, and in addition to the money realized from the benefit several private contributions were received.

The feature of the program was the singing by Frank Galvin, accompanied by Clarence McCarty at the piano. Galvin rendered several popular song hits, including his own composition, "Harmony Joe," the music for which was written by Don Fountain, a local boy. Both McCarty and Galvin were encored several times.

Earl Bowen, a local piano player of note, rendered several solos which were well received.

The rest of the program was composed of motion pictures, featuring the "Two Orphans," a play in which Kate Claxton starred.

PREDICT VICTORY

ETTA DA VEGA.

Proud of the title which they have attained during the basketball season, the girls of the Lincoln grammar school say that they will not be defeated this term and that they will continue to challenge rival teams of the public schools of this city. Etta Da Vega, captain of the team and one of the star players, is rated as one of the star basketball performers of Oakland. Recently she shared honors with Esther Church, also one of the shining lights of Lincoln team, who won a fast game with the girls of Lafayette school. Irene Henderson was the star of the Lafayette squad. The last contest recorded 27 points for the Lincoln team and 2 for the Lafayette. The girls of Lincoln school have won every game this year.

The latest sport introduced by the boys of Lincoln school is the American game of football. The team was organized two weeks ago and will accept challenges. The players are Clyde Lawrence, Charles Henderson, Clyde Gibb, Leon Woolsey, Joseph Billington, Warren MacDonald, Henry Schellhaas, Wilber Henderson and Harry Hennings.

CHARGED WITH MURDER.  
ST. HELENS, Ore., Nov. 3.—Bert Green, a neighbor of Charles H. Weist, the game tender whose body was found near here with a bullet wound in the head, is under arrest charged with murder in connection with Weist's death. It was learned yesterday that Sheriff Thompson placed Green under arrest, but conceded the fact pending further investigation of his alleged connection with the crime.

## WOMEN IN THE NEWS

## 'NEVER AGAIN!' SAYS AMY CROCKER

Former San Franciscan Makes Denial of Rumored Engagement.

NEW YORK, Nov. 3.—On her return from Europe yesterday Mrs. Jackson Gouraud denied the rumor which has been persistent since early summer that she was to be married to De Max, the famous Parisian actor, who has played with Sarah Bernhardt.

"Mr. De Max and I are merely good friends," said the former Amy Crocker at her beautiful oriental home in West Fifty-sixth street.

"Mr. De Max is a charming gentleman and has artistic interests similar to mine. We went about much together in Paris, but engaged to be married. Goodness, no! There is no more truth in this report than in the rumor of my engagement at various times last summer to a dozen men, among them a Russian count and a French marquis. I shall never marry again."

## Notable Divorcee

NEW YORK, Nov. 3.—Mrs. Henri Van Renalmer Barnes Creel, who a year ago, as the bride of Henri Creel, a multi-millionaire Chilean, declared she had at last found the "handsomest and most wonderful man in the world," admitted between sobs on La Savole yesterday that she was sailing for London to begin suit for divorce.

Mrs. Creel, who is noted on two continents for her beauty, has figured in a notable list of courtships. Soon after her divorce six years ago from Henry Davis Barnes, of a wealthy Baltimore family, she was reported to be engaged to Baron James de Rothschild, of the French branch of the great family of financiers, and later it was reported that she was to be married to Walter Lewisohn, William D. Burden next laid siege to the vivacious widow, following her to Europe and over the continent.

"There is nothing the matter, nothing," she said between her sobs yesterday as La Savole sailed, "except that I am an American and Mr. Creel is a Chilean of Mexican ancestry. We could not get along happily. I am terribly sorry."

## Wife's Value \$30,000

SAN JOSE, Nov. 3.—Assessing his distress at the loss of his wife's affections and companionship at \$25,000 and other items at \$5000, Hugh Menton of Los Gatos, a former merchant of the Gem City and proprietor of a billiard hall and cigar stand, yesterday filed suit in the Superior Court against J. J. Cornell, a wealthy rancher, for damages to the sum of \$30,000 for alienation.

"Automobile 'joy rides' and excursions to San Jose, Wrights Station, Santa Cruz and other places, and the lunches and dinners in San Jose and Santa Cruz cafes and clandestine meetings at many different times and places are set forth in Menton's complaint in support of his demand for damages."

He charges that Cornell "wickedly, wrongfully and unjustly enticed and persuaded" Mrs. Menton to behave in an unwifely manner, and that "by insidious wiles prejudiced and poisoned her mind" to such an extent that he finally succeeded in destroying the Menton home.

The Mentons, who were both from Santa Clara, were married on August 31, 1901, in the mission town, and up to the first of last year had a happy home at Los Gatos with their six children. Mrs. Menton was Miss Isabelle F. Scott before her marriage. The final separation came on November 28, 1910, nearly a year ago.

Millionaire Sues  
GARY, Ind., Nov. 3.—Suing his young wife for divorce on the grounds of cruelty has reduced the income of Lewis A. Bryan, a Gary millionaire, to a paltry \$12 a week. Mrs. Bryan yesterday was granted an injunction which allows the millionaire only \$12 a week for living expenses pending the hearing of the divorce suit.

In the meantime six large touring cars lie idle in the Bryan garage, useless to their owner.

Mrs. Bryan is 26 years old, less than one-half the age of the man who charges her with cruelty. She met Bryan while serving as nurse to his first wife.

## Woman Arrested

VISALIA, Nov. 3.—Mrs. Mamie McCracken Burke of Dinuba, who holds a place of considerable prominence in that city, has been placed under arrest on the charge of embezzling \$400 from the estate of her daughter, Miss Harriet McCracken. The arrest was caused by her bondsmen, J. C. Rice of Hanford and Walter Billingslea of Dinuba.

Mrs. Burke was appointed guardian of the person and estate of her daughter in 1902 and it is said that since that time she has appropriated various amounts to her own use. She was relieved of her position in July of this year and T. J. Cross of this city appointed guardian. Since then the latter has been endeavoring to obtain possession of the missing funds, but in vain. Her arrest followed yesterday. The affair has caused a sensation at Dinuba, where news of the alleged peculations of Mrs. Burke only recently leaked out.

## Dream Was Prediction

INDIANAPOLIS, Nov. 3.—Miss August Knabe, cousin of Dr. Helene Knabe, who was found a week ago with her head and "free" alkali, yesterday told Coroner Durham of a frightful dream, a premonition of trouble which was to follow.

In relating her experience she said: "I dreamed that I was with Dr. Knabe and that the tail of an enormous black snake hung down toward us from a tree. We were speechless with fright and felt that we held each other in a close embrace, as if every moment would be our last. I awoke while the dream held me in great fear, and I did not sleep soundly the rest of the night."

## KOHLER &amp; CHASE CO-OPERATIVE PIANO &amp; PLAYER-PIANO CLUB

The Co-Operative Bonus Plan still further lessens the prices

You haven't overlooked the fact that the Kohler & Chase Co-operative Piano and Player-Piano Club has a life insurance feature connected with it, have you? 'It has. It's like this:

We realized before organizing this club, that if we did organize the club, the majority of the members would be those who would appreciate a protective feature like this. We thought that the members would feel a *security* about such a feature. We therefore figured it into the Co-operative Club, with this result:

*That in the event of the death of a club member before his piano or player-piano is paid for, the remaining payments will be canceled forthwith and a receipt in full handed to his family.*

## Other Features of Kohler &amp; Chase Co-Operative Piano and Player-Piano Club in Detail

1. The club is to be composed of over 1,200 members.
2. One-third of the memberships have been taken.
3. The piano or player-piano will be delivered when you join, or later, as you wish.
4. The monthly payments begin when the piano or player piano is delivered.
5. Every instrument is guaranteed without reserve for five or ten years. There are no "ifs" or "ands" in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing.
6. If, after 30 days' trial, the piano or player piano is not satisfactory we will give you your money back.
7. If the piano or player piano is satisfactory after 30 days' use, the club member has eleven more months in which to satisfy himself as to the character of the piano or player piano. If it does not then prove to be everything that he expects he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell—and we sell over thirty different representative makes.
8. A beautiful stool to match the piano (or bench for player-piano) is included without extra cost.
9. The piano will be tuned twice without charge.

This invaluable feature affords the Co-Operative Club member *absolute protection*. The thought of losing the instrument through inability to make the remaining payments should the club member happen to die before the instrument is fully paid for, can be put entirely out of mind.

The insurance feature of the Kohler & Chase piano and player-piano club *does not cost the club member one cent extra.*

To KOHLER &amp; CHASE.

Dear Sirs:

I desire to thank you for the prompt manner in which you have fulfilled the insurance agreement in your club contract under which my late husband purchased our piano.

I had anticipated some little necessary formalities and delay, but when you immediately sent me a receipt in full on the death of my husband, although our payments to that date only amounted to \$51.25, I was, indeed, thankful our piano had been purchased through your club under a contract containing such an excellent safeguard.

Yours faithfully,

## Want Beautiful Hair?

Then Try This Shampoo  
(Maid Marion on Beauty.)  
"It is a well-known fact that wet shampoos pour injury to both hair and scalp, as they contain more or less potash and 'free' alkali, rendering the hair brittle. These two chemicals reduce the vitality of the hair glands and delicate tissues, and drenching the head to remove the latter usually aggravates the condition."

"A very fine dry shampoo that is cleansing and beneficial to hair and scalp can be made by mixing 4 ounces of either orris root or corn meal with 4 ounces thereof. A tablespoonful sprinkled on the head, then brushed well through the hair, cleanses and exhilarates the scalp, takes every particle of dust and oil from the hair, and leaves it soft, glossy and easy to do up."

ation of trouble which was to follow. In relating her experience she said: "I dreamed that I was with Dr. Knabe and that the tail of an enormous black snake hung down toward us from a tree. We were speechless with fright and felt that we held each other in a close embrace, as if every moment would be our last. REDDING, Nov. 3.—Father and daughter, the daughter only 15 years of age, Music Bound at The TRIBUNE Office

## Tried 25 Years

SAN JOSE, Nov. 3.—After having lived together as man and wife for a quarter of a century, Margaret and William Regnart were divorced yesterday in the superior court. Judge J. R. Welch granted the decree.

Mrs. Regnart brought the suit, alleging that she has been treated in an extremely cruel manner by her husband for over a score of years, and has borne the treatment silently for the sake of the children, of whom there are three, including two minors, who have been given into the custody of the mother. Mrs. Regnart proved to the satisfaction of the court that her husband was sulky and silent and loud and violent by turns; that he would sit through an entire meal and speak no word to any member of the family, and that his manner was always overbearing and contemptuous.

## MUNICIPAL SALOON IS PLANNED FOR LAKEPORT

LAKEPORT, Nov. 3.—Supervisory district No. 2 of Lake county, comprising Lower Lake, is scheduled to vote on the liquor license question November 28. For this election the women of that district are registering in large numbers, presumably to avoid "dry." As a result citizens of that town are urging the novel idea of a municipal saloon. The proposition is that the supervisors grant a license for but one saloon in the district—that be under the management of a board of five directors to be elected by the people, the profits to be devoted to town improvement.

Supervisory district No. 1, including Middletown and many summer resorts, Harbin, Siegler, Adams, Howard, Anderson Springs, Hoberg's resort and Glenbrook, voted wet Tuesday.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this good Brod's Drug Store.

The airship cruised from Joannisthal to Pottsdam, where it hovered over the royal palace.

## FIRST GOLD FOUND HERE.

GRASS VALLEY, Nov. 3.—The committee appointed by the Quartz parlor of Native Sons to collect historical data to establish the location of the point where gold was first discovered in quartz in California has found that all the government reports and California historians credit the Gold Hill claim in this city as being the scene of the first discovery of gold bearing quartz. A monument will be erected there.

## HICHBORN'S WIFE AGAIN RUNAWAY?

Washington Hears Rumor That She Has Fled With Clubman.

WASHINGTON, Nov. 3.—The report is current in Washington that Mrs. Martha Hoyt Highborn, wife of Philip Highborn and daughter of former Solicitor General Hoyt, and Horace Wylie, society clubman of Washington and New York, have again eloped and are in Europe. Philip Highborn, the husband, said yesterday that he knew nothing as to the whereabouts of his wife. Questioned as to whether he would institute divorce proceedings, Highborn said that his troubles were not the public's. "When I institute divorce proceedings the papers will be a matter of record," he said. "Until that time the matter of a legal separation is my private affair." Highborn denied that he and Mrs. Highborn had reached an understanding. "Then Mrs. Highborn has not agreed that you shall go through the formality of procuring a divorce, and she will make no contest," he was asked. "No, that would not be legal, anyway," he replied. Highborn appeared much surprised when asked as to whether Mrs. Highborn had ever started action for a separation. "Well, hardly," he said, shortly. As to when he would begin his action Highborn declined to say anything. E. Swazey, who at the time Mrs. Highborn first disappeared said that she was at a seaside resort with her husband, has nothing to say concerning the report of the contemplated divorce action.

## EXPERT FINDS VOTES WERE TAMPERED WITH

SACRAMENTO, Nov. 3.—Handwriting expert Carl Elsenchimmel, after a minute examination of the ballots in his laboratory in San Francisco, has determined that the ballots cast for Justice of the Peace of the Riverside township in the Sutterville precinct last November were tampered with after the polls were closed. Elsenchimmel is said to have informed the members of the Grand Jury that some of the ballots were stamped opposite the name of Michael F. Shelly after the polls were closed and the original votes had been canvassed. This tampering had the effect of throwing the election to Shelly and against C. O. Busick, who won the original count. The Grand Jury is continuing its investigation.

## CROCKER BLOOMS LOST IN TRANSIT

Which Is Why Society Leader Failed to Win Prizes.

HILLSBOROUGH, Nov. 3.—If you had expended thousands of dollars in raising chrysanthemums of 25 varieties, dahlias, roses, carnations, pinks and blossoms of every hue in an effort to carry off the prizes at a floral show and shipped such plants by express which never reached its destination—wouldn't it make you mad? This was what happened to Miss Jennie Crocker, who exhibited that society thing was amiss only when the members of the Redwood City Women's club, which held a three days' floral show at the clubhouse at Dinege Park, which ended last Saturday, wrote the hessia a diplomatic missive to the effect that she would have won prizes had the flowers she entered on paper actually been exhibited. Then Miss Crocker began an investigation which disclosed that her priceless plants had been mislabeled by the express company. After considerable telegraphic communication she recovered the package, but the contents were no longer the flowers that would have won fame. Mrs. E. E. Slade of Menlo Park, Mrs. Charles Joseph of Woodside, Mrs. James Robinson of Redwood City, Sidney Clark of Mayfield and Frank Mills of Palo Alto were the judges of the Redwood show. Mrs. Joseph A. Donohue won all the prizes for dahlias. Mrs. Spencer, Mrs. Slade of Menlo received the prizes for the best pinks, roses and ferns. E. Goetzman won prizes in all classes of chrysanthemums, having produced the best collection of 25 varieties.

## GOVERNOR TO DEMAND REDUCED BOOK PRICE

SACRAMENTO, Nov. 3.—When the state textbook committee meets to fix a price on the new state physiology, which is just off the printing press, Governor Johnson will insist upon a reduction of at least one-third in the price that has been charged for books of similar size and character.

## GIVES UP PRESIDENCIES

NEW YORK, Nov. 3.—Announcement was made yesterday of the resignation of Edwin Hawley as president of the Great Western Power company of California, the California Electric Generating company and the Western Power company, a holding company for the Great Western.

Now we have the harking back to the elemental, to breathing bated and halted heart action, to suspense for its dramatic sake, to love that hangs in the balance, to each of them and all of them. One Paul Armstrong, playwright, has the rare faculty of dragging the elements of drama from their hiding place, stripping them of all that conceals; giving them to you bare, yet sending you home with the impression that what you have seen was the product of and not the elemental.

Armstrong wrote "Alias Jimmy Valentine," which opened an engagement of six performances at the Macdonough theater last night. There was a capacity audience present. A capacity audience means a sympathetic audience, and so there was every incentive for those on the stage to do their best. They did. It was their level best, at that, and the result was, not a road-worn, frazzled recital of a story that could be spoiled in the telling, but an illustration of just how far the art of make-believe can fool you.

Paul Armstrong discovered himself in "Alias Jimmy Valentine." He dabbled with sentiment until he had it at typewriter finger tips—as well as had the next fellow. He searched about until he found his ability to write refined villainy—as well as the next fellow. Then he ran across his rare power of portraying those who, shun even the art light, and he found he could do it better than the next fellow.

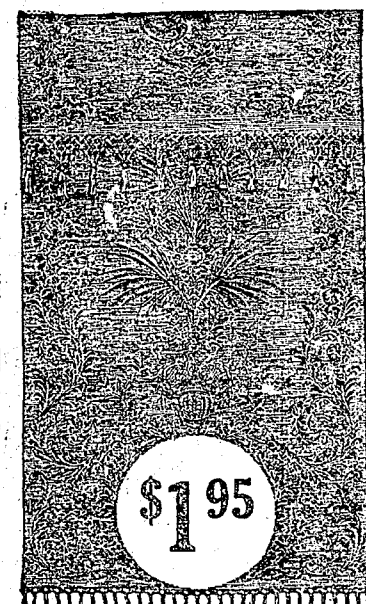

Paul Armstrong is not the dramatist of the criminal, as a result. In his search for himself he groped about for the best expression of an art he knew he possessed—that of wielding suspense—and it was in this very portrayal of the underworld citizen that he found that expression. The art of dramatic suspense was never better illustrated than it is in "Alias Jimmy Valentine." The which may sound like a chestnut, but is merely the due coming to Armstrong.

H. B. Warner is Lee Randall, who, under the alias of Jimmy Valentine, is doing time at Sing Sing. Warner has not failed the men who entrusted him with the care of a perplexing character. Jimmy is two things before he is a crook—he is a man of woman and he is the possessor of a sense of humor.

Being the first, he has heart strings; owing the second, he is forced to watch closely lest he giggle himself into trouble. He lives and labors under a strain; struggles to wrest his love from the clutch of haunting fear; clashes time and again with the memory of a past. This then is what is moving about in

(correct) and entitled to be any one of her fifty-seven thousand varieties. Bill Avery, as the third man in the reformed, triumvirate of crooks, has one of the happiest moments of the play when, reformed, he is left alone by Jimmy and roams the streets, wondering how he is attached, unhampered \$100,000. Avery is done to a rich brown turn by William H. Turner. Frank Monroe's boy is not, praise the stars, anything like the stage detective you met in your childhood and have been meeting ever since. Frank Monroe is above a hint of repugnance. "Red" Jocelyn, Robert Fay, lieutenant-governor, and William Lane are doubled capably by Frank Kingston. Edward Bates and Charles E. Graham do clever bits of character work in the warden's office at Sing Sing. Warden Handler is well played by Charles Riesgo. Elicited, dollopback by London McCormick; Smith, a clerk, by George Schillinger. Philip Traub and Alma Sadler, children, are delights as Bobby and Kitty.

## SOP TO AUDIENCE.

A playwright, setting out to produce, bears in mind, first, that he must have something to prove, something to tell and something to drive home. Armstrong would do just that, and started to, but buried his purpose in a mass of delicate romance, tremendous suspense and well-drawn humor, all of which comes from working with the box office in mind and with the desire of throwing a large quantity of sop to the audience.

What the playwright would show you that there is a chance for the free convict to make good is his will go straight. What is in your mind when you ride home from the theater is that tremendous scene at the vault, the perspiring, ten-minute interview with Doyle and several bits of romance. Well, then, is there only flaw in an evening of entertainment not bettered in a decade. "Alias Jimmy Valentine" is this, but it is not an everlasting drama. When that playwright will dare to tell a strong story and keep it uppermost, finding just the right proportion of romance, heroics, realism and suspense, but never so much as to bury his tale, then will the great American play be written. That is but a dream in this day and age, when audience demand this overabundance of love, suspense, and the rest of it, and the playwright listens to the call of the box office.

## 2000 SOLDIERS SWEAR LOYALTY

Officers and Men of Mexican Army Take the Oath of Allegiance.

ENSENADA, Lower California, Nov. 2. A San Diego, Nov. 3.—Two thousand officers and men of the Mexican army this afternoon swore allegiance to the new government of Mexico in the presence of practically the entire population of this place. Immediately after the ceremony General Gordillo Escudero, civil and military governor of Lower California, left in an automobile for Tijuana, and will reach San Diego tomorrow morning.

The ceremony was conducted by Colonel Miguel Mayol, commander of the eighth battalion, Mexican army. The troops were drawn up in two parallel lines on the main street, with the head of the column at the government building. Then the flag was unfurled, the officers laid their bare swords on the flag, the troops presented arms and the oath was administered.

It is uncertain when Escudero will return to Ensenada, as he has been ordered to Mexico City by the government.

# SHANGHAI IS TAKEN BY REBELS WITHOUT FIGHT

No Resistance Is Made by the Authorities When Revolutionists Hoist Their Flag Over Arsenal of the City

(Continued From Page 1.)

Voices from Hankow give assurance that the foreign concessions are safe and have not been seriously disturbed by the fighting in the native city. The province of Yunnan, on the southwestern frontier of China, has declared its independence, according to reports received here today.

#### RICH PROVINCE.

Yunnan, which fronts on Tibet and Burma and is known as the Switzerland of China, has an area of nearly 160,000 square miles and a population estimated at 12,000,000. It contains China's richest mineral deposits and boundless stores of anthracite coal. Agriculture and stock raising are extensively carried on and the province produces some of the best grades of tea. It was the principal scene of the great Mohammedan rebellion, which lasted for sixteen years, and was suppressed in 1872.

### Hankow Swept by Fire and Sword

HONG KONG, Nov. 3.—Delayed dispatches from Hankow, sent via Wu-Hai, describe the situation there on the night of November 1 as appalling. An enormous conflagration was sweeping over the city and fighting was in progress in several quarters between considerable bodies of rebels and loyalists.

The imperial batteries were lifting explosive shells into the native quarter, while the rebels on the other side of the river had brought long-range guns into play from the Wu Chang fortifications and were firing with fair effect on the loyalist positions. The fighting was clearly visible from the European concessions and several stray shells dropped in the British concession, but without doing serious damage.

The viceroy of Kwang Tung province at Canton has dispatched a gunboat to this city to transport an immense supply of ammunition and firearms, of which he has contracted with foreign firms.

### Rebels Dynamite Han Yang Arsenal

SHANGHAI, Nov. 3.—Wireless messages received from Hankow today say the revolutionists dynamited the arsenal at Han Yang to prevent its seizure by the imperialists. There is evidence of renewed insurgent activity on the lower Yangtze. The cotton yarn guild adopted a resolution authorizing the repudiation of forward contracts on the ground that trade has been disordered by the revolution.

### Hope to Stop All Manchu Pensions

LONDON, Nov. 3.—The Peking correspondent of the Times says the National Assembly, which is acting as a restraining influence upon the military, will insist upon the removal of all Manchu pensioners, the disbandment of all Manchu corps through the entire abolition of the Manchu pension list on one year's notice, abolition of eunuchs and the disbanding of the queue and distinctive Manchu dress.

### Old Prince Proposes Terms of Peace

PEKING, Nov. 3.—Prince Ching, the old premier, who is the only high Manchu official left here, has agreed to memorialize the throne with these suggestions:

First, that all laws opposed to constitutional methods be annulled immediately.

Second, that the election of members of parliament be undertaken without delay.

Third, that the provincial assemblies throughout the empire be granted coordinate authority with the provincial administrative officials.

Fourth, that, in order to avert an open rupture with the Manchu royalty, a plan be drawn up to provide for the support of the Manchu bannermen and pensioners and the banners—the eight divisions of the imperial Manchu militia—be disbanded.

Fifth, that the Manchu bannermen adopt Chinese surnames.

Sixth, that a formal proclamation be issued announcing that military force will not be used against the revolutionaries.

### New Constitution for China Proposed

PEKING, Nov. 3.—The National Assembly completed today a draft on the basis of which it proposes to construct the new constitution of China. It was submitted to the throne and accepted immediately.

The tentative plan provides for the perpetuity of the Manchu dynasty, but the power of the emperor is closely restricted by the constitution, which is to be written by the national assembly and subject to amendment by parliament.

The imperial princes are made ineligible to the offices of the premier, members of the cabinet and administrators of the provinces. The draft follows:

1.—The emperor shall reign forever.  
2.—A person of the Tai Ching dynasty (the great pure dynasty), the same being the name adopted by the ruling family) shall be emperor invariable.

#### POWER LIMITED.

3.—The power of the emperor shall be limited by the constitution.

4.—The order of succession to the throne shall be prescribed by the constitution.

5.—The constitution shall be drawn up and adopted by the national assembly and will be promulgated by the emperor.

6.—The power of amending the constitution shall belong to parliament.

7.—The members of the upper house shall be elected by the people from among those particularly eligible to the cabinet or administrative heads of the provinces.

8.—The parliament shall elect and the emperor shall appoint the premier, who will recommend the other members of the cabinet, who shall be appointed by the emperor. The imperial princes will be ineligible for the office of premier, or members of the cabinet or administrative heads of the provinces.

#### DISSOLVING PARLIAMENT.

9.—If the premier, when impeached

by parliament, does not dissolve parliament he must resign. On cabinet shall not be allowed to dissolve parliament more than once.

10.—The emperor shall assume direct control of the army and navy, but when this power is used in connection with internal affairs the emperor must observe special conditions to be decided by parliament.

11.—Imperial decrees cannot be issued to replace the law except in the event of urgent necessity; in which case they may be issued in accordance with special conditions.

12.—International treaties shall not be concluded without the consent of parliament, but a treaty for the conclusion of peace or a declaration of war may be made by the emperor if parliament is not sitting, the approval of parliament to be obtained afterwards.

13.—Ordinances shall be settled by acts of parliament.

#### NATION'S FINANCES.

14.—In case the financial budget fails to receive the approval of parliament, the government may not act on the budget of the previous year nor may items of expenditure be appended for the budget be appended thereto. The government shall not adopt extraordinary financial measures outside the budget.

15.—Parliament shall fix the expenses of the imperial household and any increase or decrease therein.

16.—Bargains in connection with the imperial family must not conflict with the constitution.

17.—The two houses shall establish the machinery for the administration of the court.

18.—The emperor shall promulgate the decisions of parliament.

19.—The national assembly shall act on articles 8, 9, 10, 12, 13, 14, 15 and 18 until the opening of parliament.

### Rebels Fire On Japanese Flag

SAN FRANCISCO, Nov. 3.—According to a dispatch received from Shanghai today by the Chinese Free Press, the revolutionists explain their act in firing on the ship carrying the Japanese flag by saying the vessel was filled with munitions of war for the imperial troops and merely used the flag as a blind.

The incident occurred on the river near San Yang, where the great arsenal is.

The revolutionists are said to be occupying the province of Kwang Si, west of Canton. No resistance was offered by the people. The revolutionary army is marching from Wu Chow, the metropolis of the province, to invade the district of Shuhing, in the Canton province.

The Chinese Free Press, a daily paper, has received cables confirming the news that the people of Yunnan province have proclaimed independence, and also the peaceful occupation of the native city of Shanghai by the revolutionary forces.

## HEAD OF MISSION SOUGHT BY POLICE

"Colonel" F. Edward Davis Is Said to Have Left Unpaid Bills Behind.

An arrest for drunkenness, alleged trouble with his wife and the failure of Oakland pedestrians to listen when he prayed fervently for the salvation while kneeling in the gutter led "Colonel" F. Edward Davis to abandon the little Welcome Hand Mission at 742 Harrison street to go to Modesto, where he alleged by several people with whom he had dealings that he left his bills still upon the credit basis, despite the fact that he is said to have collected large sums of money for his mission.

Dressed in a neat suit of blue, with gilt braid and shoulder straps and cap, somewhat similar to that worn by the Salvation Army workers, the man has made a practice of soliciting contributions from wealthy people whom he knew to be charitable. He is said to have collected a large sum from wealthy Chinese of both sides of the bay on the assertion that the "mission" was for Chinese children.

#### WAS SUCCESSFUL.

He is known to have been very successful in his collections and has lately been well supplied with money. He took with him his books and records, and those who are investigating the case are unable to estimate the amount of money he got away with.

Stationed at the street corner toward the man on Monday, when he was arrested by Policeman Tobin on a charge of drunkenness. He was held for a time by the police pending a battery warrant which Davis' wife was to have sworn to.

Wednesday morning Davis and his wife left Oakland, leaving J. M. Holmes, an employee, in charge of the mission. Yesterday the caretaker received a post card from Davis in which the latter said he had reached Modesto safely and would proceed at once to Modesto to establish another mission. The rent was due on the Oakland rooms and other bills were presented, and last night Holmes sold out the battered stock of goods in the "mission" store and closed the establishment.

### DOCTOR AND NURSE WED AND SURPRISE FRIENDS

SAN MATEO, Nov. 3.—Dr. Norman D. Morrison and Miss Pearl Lancaster, a nurse in the Red Cross hospital here, were married secretly yesterday in San Francisco. The couple did not take any of their friends into their secret and it was not known until the wedding last night.

Dr. Morrison has practiced medicine here for many years. He has been a widower for two years and has two children by his first wife. Mrs. Morrison is a New York girl, having come to San Mateo rather recently.

After a honeymoon of ten days the couple will return here to live.

## RIPLEY BLAMES SIX LITTLE PILLS

Six little liver pills, promised cure for divers ills, were taken all in good intent by William Ripley, 405 Tenth street, last night, but shortly after the proceedings he was seized with violent pains in nearly every part of his body. His head ached, his arms grew cold and his legs commenced to stiffen. At that stage of the experiment he set out for the receiving hospital, and was able to get there before entirely disabled.

With the aid of a stomach pump and carefully selected antidotes Steward Travers alleviated the patient's misery, and after he spent the remainder of the night at the hospital he was able to return to his home this morning, vowing that next time he would be more careful in prescribing for his own ailments.

## Professor John J. Montgomery.

Professor John J. Montgomery, whose tragic death at San Jose a few days ago shocked this community in which he was bred, belonged to a class that has conferred inestimable benefits on mankind. Men of his stamp are seldom appreciated for their true worth during their lifetime and still more rarely reap the rewards of their genius and study.

Professor Montgomery was a scientist and inventor. In the ordinary affairs of life he was as simple as a child, but as regards the laws of physics and mechanics he was a man of practical wisdom. He was impractical in dealing with men, but he was intensely practical when it came to science. He was a student and a thinker. He could grasp and correlate scientific principles, and apply them to mechanical devices, but the mental habit produced by study of the unvarying laws of science caused him, to take little heed of the sophisticated morals of business principles and the sordid law of human selfishness.

He benefited mankind, but he did not benefit himself. Other men who laughed at his self-absorption and called him a visionary appropriated and capitalized his discoveries and inventions without offering him the slightest compensation. They did not even thank him, and were rather disposed to despise him for being so ingenuous and trustful—so uncommercial, so engaged in adding to the sum of human knowledge that he could not spare the time to add to his own possessions.

A quarter of a century ago he began to experiment with devices to navigate the air. He was one of the faculty of Santa Clara College, and made the study of aviation the subject of scientific investigation. He was not seeking money or fame, but strove to practically demonstrate a theory he had formed. He began his experiments with his feet firmly grounded on the laws of physics. He was no dreamer, but a scientific investigator—not a wild visionary, but a sane, practical inventor. He allowed anybody to witness his experiments, freely communicated his ideas and deductions to all that questioned him. He made no effort to protect his property rights in his inventions. Of course his ideas were stolen and his inventions pirated. Men laughed at his unworldliness while they robbed him of the fruits of his labors and plundered him of his fame as well as the product of his brain.

When a popular craze for aviation began a few years ago, Professor Montgomery had been experimenting for a long period with devices for navigating the air. He had already mastered many obstacles and had success almost within his grasp. He was handicapped by lack of money to continue his experiments and by his reluctance to seek financial assistance. He was too modest and diffident to advertise his work or his own capacity. Other men appropriated his inventions without credit. All the American aviation inventors are deeply indebted to him, but not one has ever acknowledged what he owed to Professor Montgomery or admitted that Professor Montgomery had cleared the way as a pioneer in the field of aerial navigation.

Having none of the instincts of the showman or the money-maker, Professor Montgomery would not go into the business of speculative exploitation. He would not patent devices that he considered imperfect. Others did both, while the man from whom they filched their ideas remained poor and comparatively unknown. Too often is this the case with the ardent and conscientious inventor. But while Professor Montgomery expressed whimsical surprise at the ingratitude and dishonesty he had encountered, he never lost his sweetness of temper or his faith in human nature. He died confident that he had finally mastered the problem of navigating the air with safety and certainty, to which he had devoted so many years of his life, and with his confidence in mankind unshaken. Nevertheless he went to his grave unrewarded for the service he rendered science and his fellow men.

Men like Professor John Montgomery have led the way in every advance of the human race. They have marked the path of development by which the naked savage has become the civilized being of today. They have immeasurably enlarged the measure of human comfort and equally lessened the burden of human toil. They have been reviled while living, but apotheosized after death; but living or dead, they have been robbed remorselessly by men who scoffed at them for being impractical and unbusinesslike. Yet they are the most useful class the world has ever produced. Apart from the value of his scientific and inventive work, Professor Montgomery deserves an honorable place in public memory for his nobility of character and his devotion to the primal virtues on which all stable society rests.

Japan has rushed troops to Mukden, the capital of Manchuria, but it is unlikely that the Japanese government has any intention of supporting the Manchu dynasty further than to protect the concessions Japan has extorted at different times from the Chinese government. Japan does not propose to lose her grip on the southern half of Manchuria. Very likely she has strengthened her forces in the province that she may be better prepared to cope with any situation that may arise. In case the Chinese empire should be dismembered, Manchuria would become the prey of either Japan or Russia. At present the province is practically divided between the two. Were Russia permitted to extend her sphere of influence to the Gulf of Pechili and the banks of the Yalu, Japan would have to confront her old enemy on the western frontier of Korea, and the menace which drove her to war with Russia would be renewed. It is reasonable to suppose, therefore, that she has strengthened her forces in Manchuria to be prepared for any emergency that may arise.

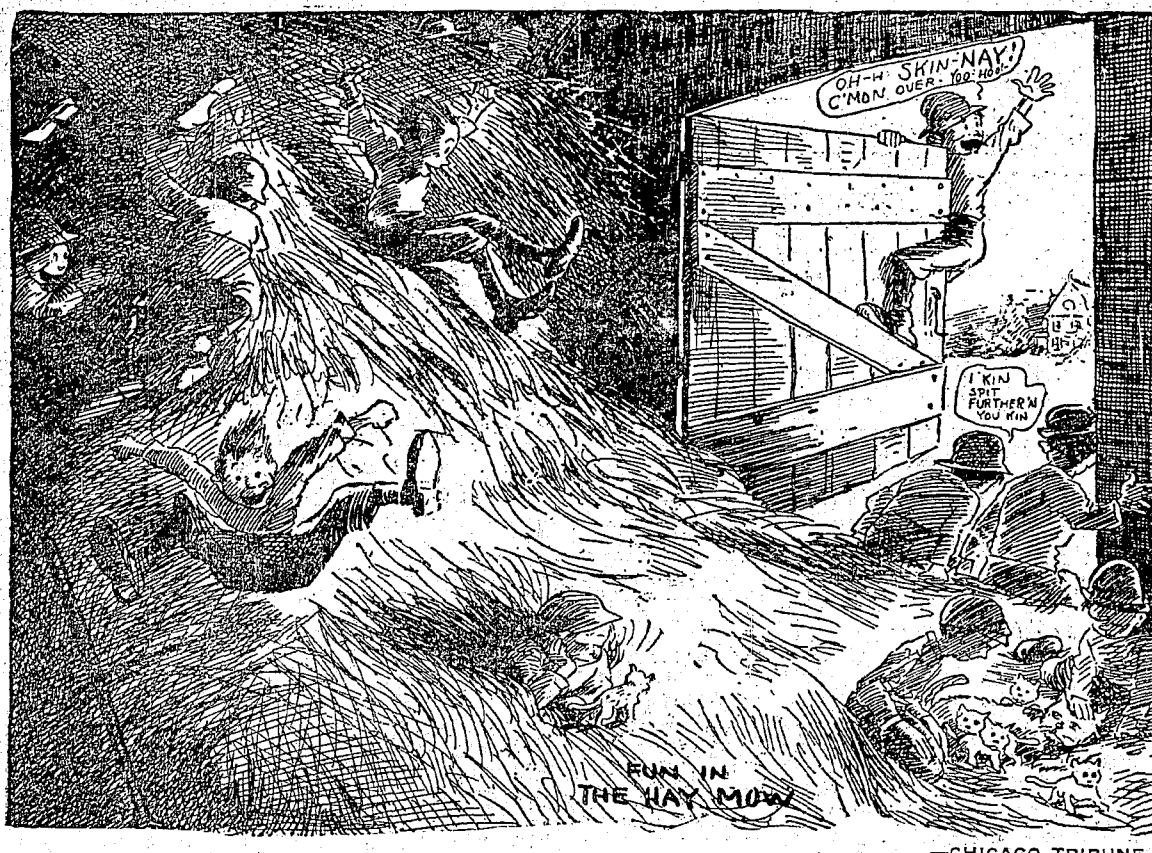

## The Panic Argument for Annexation.

The San Francisco Chronicle is again harping on annexation. On that subject it is as uneasy as a cockroach in a hot skillet. It is so haunted by the terrible fear that Los Angeles will outstrip San Francisco in population that it is unable to distinguish between the elementary principles of right and wrong. It is obsessed with a nightmare that clouds its reason and renders callous its conscience.

What the Chronicle wishes to do is to dismember four adjacent counties, three of which are separated from San Francisco by the broad bay of San Francisco, to create what it is minded to call a "greater city." It does not concern itself about the welfare of the counties it seeks to despoil or the communities it desires to absorb. That is a phase of the annexation question which it refuses to even consider, much less discuss.

The Chronicle wants the Legislature to pass an act that will permit San Francisco to annex the southern part of Marin county, the northern end of San Mateo county, the western end of Contra Costa county and the cities of Oakland, Berkeley, Alameda, Emeryville and Piedmont in Alameda county. The scheme is for San Francisco to take in all the shores of San Francisco bay which means the despoilment of Sonoma, Solano and Santa Clara as well as the

## THE DAYS OF REAL SPORT

—CHICAGO TRIBUNE.

counties first mentioned. This scheme of municipal aggrandizement, if carried out, would inflict great financial hardship on the dismembered counties and perhaps compel a territorial readjustment—all to enable San Francisco to boast that she has more inhabitants than Los Angeles.

Disingenuously the Chronicle says it wishes to allow the contiguous towns to take the initiative in annexing themselves to San Francisco. Every person of discrimination and common sense knows what that means—colonization and perpetual agitation. The various towns would be conquered by political methods which come within the law, but which are none the less unjust and immoral. One town after another would be attacked, and re-attacked until finally subdued.

The infamous Wolf bill, which the Chronicle clamorously advocated, permitted San Francisco to slice off parts of incorporated cities in other counties. Under that law San Francisco could have annexed the western water front of Oakland and Berkeley—the strip which both cities are improving for shipping purposes. Emeryville would have been first attacked, then Piedmont, and the smaller cities, and Oakland would have been compelled to succumb by the logic of events.

The excuse for this brazen attempt to dismember half a dozen counties around the bay is pathetic in its foolishness. "We must not let Los Angeles get bigger than San Francisco," is urged with bated breath. Why not? San Francisco cannot retain her commercial supremacy by annexing her neighbors. Her financial and commercial dominion is not built on the extent of her territory or the number of inhabitants that dwell within her limits. She is the metropolis of the Pacific Coast because she commands the portals of the Golden Gate and is the gathering and distributing point for the vast stream of commerce which flows in and out of San Francisco bay. San Franciscans are absurd to be frightened at the dinky artificial harbor that the government has created near Los Angeles. The great valleys of the State pour their riches into the lap of San Francisco; an extensive system of internal navigation centers there, and in her magnificent landlocked bay all the navies of the world can ride in security.

The panic some of our neighbors are in is ludicrous. It argues a loss of confidence in themselves and in the law of trade development. They remind one of the millionaire who starved himself to death for fear that he would some time become a pauper. They are giving color and strength to the ridiculous claims of Los Angeles by showing fright at them. They are so scared that they are attempting to commit acts of folly and injustice against their neighbors with whom they have a common interest and sympathy and with whom they should live in peace and co-operation.

## NATION OF 829,000,000

A confident statistician, figuring on the area of the United States and comparing it with that of Prussia, Bavaria and France, confidently asserts that this country could support a population of from 451,000,000 to 829,000,000 persons.

The prediction of President Taft recently—that the United States must look forward to the time, before the middle of this century, when the farmers of the country must feed 200,000,000 people—was regarded in many quarters with consternation and not a little unbelief.

While the nation has 92,000,000 citizens in continental America, the leap from that figure to 200,000,000 staggers imagination. To step on a little further and figure on 451,000,000 or going still further and to 829,000,000 requires a vivid imagination.

Yet if the United States were populated no more densely than France—reputed to be the richest nation, per capita, in the world—it would be able to support 451,000,000 persons. If populated as heavily as Bavaria, it would support the greater figure mentioned above.

The extent to which a nation can in-

crease and be supported from its soil, if close attention and constant care is given to agriculture, is a matter that almost outstrips belief. The fruitfulness of the ground is only approximately known, even to those who have given most attention to the subject.

The United States is not now and never has been a careful cultivator. The richness of its fertile acres in no small measure has been squandered. There is much left to learn and much duty is being learned by those who till the soil.

The chances are that before any such populations as those mentioned are hived under the Stars and Stripes the tide of world immigration will be turned to the tropics, where tremendous acreages remain to be conquered whenever man's necessity renders the work profitable.

With the spread of sanitary science, decreased death rates and wiping out of preventable diseases, there is every reason to believe that the time ultimately will come when that section of the world now included in the United States will harbor within its shores such teeming millions as, the most optimistic now do not dream possible.—Seattle Times.

## AIM OF HIGHER EDUCATION

By his bold assertion that college life should have a more serious object than a social good time or recognition as an athlete, Provost Smith, of the University of Pennsylvania, has occasioned comment throughout the country.

Other heads of higher educational institutions have remarked upon the superior advantage of intellectual training, but none has spoken so emphatically and convincingly.

In a most direct way, the new provost has pointed out the mistake of regarding college life as a mere pastime, and has declared the need of radical reform to bar loafers out of college.

While his first consideration is to protect the student body from the baneful influence of idlers at college, the provost also notes the sad effect of "four years

of dallying at college" on those who waste their opportunities.

He says it means ruin and that the daily habit is carried through life. His remedy is hard intellectual work.

This hard work he would encourage. But he would go beyond mere encouragement. He would enlist the colleges themselves in a movement to bar out the idler.

"A college education ought to distinguish the man. Frequently it does not. The surprise is not so much that this man who achieves has had a college education, but that some other, who has a diploma, managed to get it.

## SERMONS IN BRIEF

NEW DEFINITION OF LIFE.

(By Rev. Richard M. Vaughan, Pastor First Baptist Church, Berkeley.)

We sometimes hide the fact of sin with euphemisms. A lie is merely a misplacement of predicates. It is not polite to say that a man steals, he simply re-hypothecates. Nevertheless sin is sin and its wages are death. The tendency is death, but not the finality. No soul anywhere is utterly dead, the inextinguishable spark is in the ashes. God writes a legible hand, sin is death to body, mind and soul. The victory over disease is vitality. We catch colds, not by exposure to air currents, but by the fall of vitality below the levels where it is able to hold germinal disease in check. We are "vitalized" by faith, a better word than "quickened." At every point life is victorious. The gospel means new physical energy, though we part with the body at the grave, never to see it again. But the soul will place its imprint upon some instrument of its activities for we are not to be interstellar ghosts. The mind is energized by great and permanent motives. Emotions, conscience, and will receive new impulse. He who possesses Jesus' type of character can never die, death is but an incident in an unbroken career. The wages of sin may be death, but the gift of God is eternal life.

## Men and Women

Senator Luke Lea, who recently saved his wife's life by surrendering himself to the formidable operation for transfusion of blood, was congratulated in Washington about his marital devotion.

"Yes," he said, smiling, "we still marry in the old-fashioned way down in Tennessee. The marriage de convenience hasn't reached us yet. We're not at all, we Tennesseans, like the Gobsa Gobsas."

"Gobsa Golde at the age of 64 married a beautiful chorus girl of 17. That was ten years ago, and the other day a caller said to Mrs. Golde:

"I really believe you're fonder of your husband now than you were when you first married him."

"Why, of course, I am," Mrs. Gobsa Golde replied. "My husband is richer now than he was then."—Kansas City Star.

## Rachelor Musings

Anyhow, a girl would rather go to school than help her mother at home. Some people never seem satisfied with anything in life except when they are asleep.

Perhaps the most of us would be different if our neighbors were what they should be.

A dull razor is one of the relics of barbarism.

Virtue is its own reward. It seldom gets an encore.

An enemy's sneer is often more helpful than friend's flattery.

Among others the telephone companies don't believe in free speech.

The best cure for the man who thinks he knows it all is marriage.

We are all apt to wonder why other people don't profit by their mistakes.

## 20 YEARS AGO IN OAKLAND

The papers have been drawn up in one of the most important improvements projected in Oakland for many years—the widening of a portion of Broadway and Telegraph avenue. These papers, prepared by George E. De Golla at the request of interested property owners, will be presented to the Council on Monday evening.

Mayor Chapman has approved the ordinance accepting Broadway from First to Twelfth streets.

A few years ago Oakland's parks were waste places and dumping grounds. Now they are a delight to the eye and the admiration of strangers. The improvements of the parks is an index to the improvement which has been going on all over the city.

There is soon to be a tug-of-war between teams from the Native Sons, Young Men's Institute and Sons of Hermann of Hayward.

In the picturesque Christ Episcopal church of Alameda occurred last evening one of the prettiest, and at the same time one of the most impressive, weddings that has taken place in the Encinal city for a long time. The contracting parties were William Farragut Chipman, the chief weigher in the customs house in San Francisco, eldest son of Mrs. C. E. Dwinelle, and Miss Sophie Marie Koppitz, a young lady prominent in the musical circles of Alameda, and one who has made

quite a hit in amateur operatic performances.

The Oakland Jockey Club, Alameda county's great racing organization, has completed all the arrangements for the autumn meeting, which will open tomorrow at the Oakland Trotting Park.

## WHY THEY GROW BEARDS

A medico tells of two physicians in a certain town, the one elderly with a long record of cures, the other young with his record still to make. The older doctor, it appears, was inclined to surrender some of his night work to the younger man.

One bitter night in winter the veteran was aroused by two farmers from a hamlet eight miles away, the wife of one of whom was seriously ill. The doctor at once referred them to his young colleague, but they refused the latter's services.

"Very well," replied the doctor, thinking to put a convincing argument before them. "In that case my fee is two guineas, payable now."

Whereupon there ensued a remonstrance on the part of the farmers; but the doctor was obdurate. Finally one of the men asked the other:

"Well, what do you think I ought to do?"

"I think you'd better pay him the two guineas," said the other. "The funeral would cost you more."—Tit-Bits.

STOCKTON, Nov. 3.—Following a recess of one day during which time 75 veniremen were summoned as possible members of the jury to try S. B. Artell, charged with the murder of Charles Sollars, the case was resumed this morning. There are five more jurors to be sworn before evidence can be taken. That there is a possibility that still another panel will have to be called seemed apparent this morning, as but few of the veniremen were temporarily passed. None of these have been sworn.

ALAMEDA, Nov. 3.—The council committee will meet in regular session this evening to go over the large amount of business which will come before the council next Tuesday night. It is rumored that the council will nominate either tonight or Tuesday night two Alameda physicians to membership on the board of health. At present the board has but three members, Dr. J. A. Riley, president, Dr. Hermann Scholtz and F. W. Schulte. The charter provides that four of the five members must be physicians. Drs. H. A. Miller and J. A. Ellis resigned recently when it became apparent that they would constitute a minority on the board and that Dr. Riley was to be made president to succeed Dr. Miller. Since that time the board has had but three members.

## HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if we were not certain that it would do all we claim it will. Should we not enthusiastically carry it away, and Rexall "93" Hair Tonic not give entire satisfaction to the users they would lose faith in us and our statements and in consequence our business prestige would suffer.

Therefore, when we assure you that if your hair is beginning to unhealthily fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

Out of one hundred test cases Rexall "93" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the baldness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely lifeless.

Rexall "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring the hair growth and hair health. It is not greasy, and will not stain the scalp or hair, or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on your own hair. Remember you can obtain it only at the Owl Drug Company, stores in Oakland, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

**SAN FRANCISCO**, Nov. 3.—The darling footpad who has been so successfully operating on the waterfront and in the city has been holding up related commuters, was almost captured shortly before 1 o'clock this morning.

For the first time since he began to ply his trade he was worsted in a combat with his would-be victim and fled ignominiously from the scene.

Gustave Pellego, who lives at the Evans hotel, was the victor in the battle with the thug. He was walking along Jackson street, near Davis, and there was no other pedestrian within earshot, when he was suddenly confronted by a man holding a revolver close to his cheek and demanding that he hold up his hands. Instead of obeying the command he grappled with the robber, tried to tear the weapon from his grasp, and began shouting for help.

Alarmed, the thug turned and ran, with Pellego in pursuit. The chase led down Davis street to Front street and through a vacant lot. Pellego, however, was not such a good sprinter as the footpad and soon was left in a block behind him. Officers Higgins and Casey heard the cries and joined in the chase, but the robber succeeded in getting away.

**TO FACE COURT-MARTIAL.**

## GIFT TO BRIDE IS \$1,000,000

Miss Rebecca Kruttschnitt Becomes the Wife of Henry Woodhouse.

NEW ORLEANS, Nov. 3.—A notable event yesterday in fashionable circles was the marriage of Miss Rebecca Demander Kruttschnitt, the only daughter of Mr. and Mrs. Julius Kruttschnitt, recently of Chicago, to Henry Clifford Woodhouse of England, which was celebrated at 5 o'clock in the afternoon at the home of the bride's uncle and aunt, Mr. and Mrs. Joseph Paxton Blair, in St. Charles avenue.

Mr. and Mrs. Kruttschnitt were formerly from New Orleans, and Miss Kruttschnitt spent the greater part of her childhood in this city. The family has made its home in Chicago for a number of years and also frequently visited in California. It was during a visit to Santa Barbara that Miss Kruttschnitt met Woodhouse.

**GUESTS OF THE BLAIRS.**  
The members of the family, including also the younger brother of the bride, John Kruttschnitt, arrived a few days ago and have been the house guests of Mr. and Mrs. Blair for the wedding.

The ceremony was held in the large drawing room of the home, a great quantity of palms and rare flowers adding beauty and richness. Miss Kruttschnitt entered with her father, who gave her away. She was lovely in a bridal dress of white satin with trimmings of exquisite old lace, an heirloom in the Kruttschnitt family. She wore a long veil of illusion, which was very becoming to her piquant French type of beauty, and carried an ivory and gold prayerbook. Monseigneur Lavalle of the St. Louis cathedral officiated at the ceremony. The only attendant was Ralph J. Hope-Verre of England, who was best man. He reached New Orleans Wednesday from the western coast with Woodhouse.

**RELATIVES AT WEDDING.**  
The wedding guests included only relatives and a few friends of the family here. Mrs. Julius Kruttschnitt, Mrs. J. P. Blair and Miss Alma Kruttschnitt received. Mrs. Kruttschnitt wore a rich gown of silver and cloth of gold with finelings in chiffon. Mrs. Blair's gown was of black lace with touches of color. Julius Kruttschnitt's gift to his daughter is declared to have been stocks, bonds and other securities to the total value of \$1,000,000, which puts her in the "million-dollar bride" class.

Woodhouse and his bride left this evening for California and will spend their honeymoon in the Coast. They will return to America in March and will go to Klamath Falls, Ore., where Woodhouse owns a ranch and where they will live for some time. Both are devoted to outdoor pleasures. Woodhouse has traveled extensively and was with the English army in the South African war as a member of Lord Roberts's Light Horse.

Julius Kruttschnitt, the bride's father, who is widely known in railroad and financial circles throughout the country is a member of one of the most prominent families in Louisiana and Mrs. Kruttschnitt also belongs to one of the aristocratic older families of the state.

Rexall "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring the hair growth and hair health. **GRAND JURY WILL MAKE CLEAN SWEEP.**  
RECOMMENDS REMOVAL OF ALL COMMISSIONERS IN SAN FRANCISCO.

**SAN FRANCISCO**, Nov. 3.—Following an investigation begun recently by the grand jury into reported delinquencies in the police commission, the fire commission, the board of health and other municipal bodies, the grand jury has decided to recommend the removal of virtually every other commissioner under the present administration.

At the meeting of the inquisitorial body last night, the questioning of members of the police commission began a week ago, was completed. The probing into the fire commission was finished at the regular meeting Tuesday night. The regular investigation was in regard to reported violations of civil service regulations.

A beginning was made last night in questioning members of the board of education, and next week the board of health will be asked many pertinent questions in regard to the Wholesale employment of men and women not on the civil service list.

SPOKANE, Wash., Nov. 3.—A deliberate attempt to wreck the Spokane and Inland Express for Coeur d'Alene, which left Spokane at 11:20 p. m. A steel rail was placed across one of the main line ties and a stump was placed at two other places within thirty yards of each other a short distance from the steel rail. Fortunately for the 135 passengers the express motor carried a long pilot, which pushed aside the first obstacle and the second was discovered when the train was stopped.

## WIDOWS HOLD BALANCE OF POLITICAL POWER

SANTA MONICA, Nov. 3.—Widows hold the balance of power for the Santa Monica city election in December. This was the discovery made by the politicians and club women familiar with the population through canvases among the women. By actual count more than two hundred widows can vote at the election if they wish. They are mostly women who came to California with their husbands in failing health and who have been bereaved since their arrival. This discovery upset the preconceived estimates of strength by candidates who drew the conclusion that women would vote generally the same as their husbands or brothers. As a result the candidates appear perturbed.

For the widows no basis of calculation has been formed. From now on the campaign will be centered mainly on the two hundred women who have no husbands from which to get reports on the candidates for office.

## FUNDS WANTED FOR ALERT.

VALLEJO, Nov. 3.—The naval board at Mare Island has recommended to the navy department that an additional appropriation of \$3000 be made for the little gunboat Alert, which is now being changed into an ordnance ship for the submarines of the Pacific fleet. This sum is needed for the installation of a high-power air compressor, accumulator and separator, regarded as necessary before the Alert can be equipped to mother the underwater craft.

## GRAY HAIR MAKES

## YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color; Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If

your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear. Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

## AVIATOR TO FLY WHILE MOTORCYCLES SPEED UP

Didier Masson Plans to Sail Over Oakland After Leaving the Motordrome; Crack Riders to Enter Races

(By J. A. HOULIHAN.)

With Didier Masson, the noted aviator, and a gala array of motorcycle riders, who have been secured for the initial program, already on the ground, arrangements are practically concluded for the riding of the famous "Moto" race on the Elmhurst track, Sunday, November 12.

Such is the first public announcement by Manager Jack Prince since his return to Oakland after a successful season in the East, during which time he opened and conducted races twice a week on the Riverview saucer track in Chicago.

Practically the entire card of riders who appeared for him all summer in the Windy City have come to the coast and will be quartered in this city during the winter season.

Weekly meets at the Elmhurst track is the plan. Prince intends carrying out making possible for the local love of high speed, nerve thrillers such as can only be seen when the little seven horsepower speed annihilators which are ridden by the most daring of men are in action.

## RIVERVIEW TRACK A SUCCESS.

Promoter Prince with his Riverview saucer track made a decided hit in Chicago during the summer season just closed and the races there each Saturday and Sunday drew crowds averaging close to 16,000 a meet. Many new records were hung up by the riders. Wolters and Balke, two boys who made quite a name for themselves in the East, in particular are quite a credit to their track practice on the Elmhurst speedway that many marks now standing as records will go by the boards.

Ten of the best riders in the country have been signed for the local season, and the rivalry existing among them is of the keenest nature. Balke, Seymour and Graves appeared at the first meet which marked the long delayed opening of the motordrome last spring, the first two riding Indian machines and the latter a Merkel. Graves at that time was riding a twin, which proved slower than the ones piloted by either Balke or Seymour, and as a consequence he faded rather badly in his premier appearance. The last two named apparently gloated over their success over the boy from Los Angeles, who had come here highly touted. This served to make Graves harbor any but a kindly feeling toward them, and at different times in the past few months he has endeavored to even

## TO CIRCLE THE CITY.

As yet this city has not been favored with a real aviation meet—hence the presence of Masson, and his flights will undoubtedly attract many. One of his efforts will be to ascend from the Elmhurst track, head for the center of the city, encircle it and return to the inclosure.

Popular prices will prevail, 25 cents being the price set for general admission. This decision on the part of the motordrome management is one which should, and unquestionably will, meet with favor among the sport-loving public of the bay cities. With good weather prevailing, a crowded house should be on hand at this first race.

## 16 AUTOS TO RACE OVER DESERT

Los Angeles-Phoenix Contest to Start From Former City Saturday Night.

LOS ANGELES, Nov. 3.—Sixteen automobiles, "groomed up to the minute," are ready and anxious to start on the long grind in the annual Los Angeles-to-Phoenix desert sand race at 10:45 Saturday night.

That this year's race will eclipse anything ever before attempted in the way of speed is attested by all. For one thing the course has been changed, so that now the cars go straight for San Diego for their first registering point. The first car to arrive there, elapsed time, to count, wins a special prize of \$1000. And from then on, at all of the six places where drivers must stop and register their names and number, an additional prize of \$500 awaits the lucky first.

## \$7000 CASH PRIZE.

The big prize, however, that awaits the first arrival at the State fair grounds at Phoenix, is a purse of \$7000 cash. Ten awarding prizes elapsed time will count at all points.

The official course for the race will be from Second and Spring, Los Angeles, east through Whittier, Santa Ana, and to San Diego. Thence across the desert wastes to El Centro, Cal.; through Mexican territory to Cocopah and Andrade, where the Mexican line is re-crossed and the cars go on to Yuma. At Mexicali, customs papers must be secured and at Andrade rendered to the Mexican authorities. At Yuma, the Colorado river will be ferried. From Yuma the cars go to Castle Dome mine, Arizona, and thence to Middle Wells, the famous water hole of Southwestern Arizona, where hundreds of miners have found the precious metal that saved their lives. At Alamosa, further on, is the last registering point, and from there on to Phoenix, 160 miles, is a straight, grueling run through soft sand.

## WINNER HARD TO PICK.

While the public here has a favorite car for the race, picking favorites in this event is something akin to picking roses off Mount Wilson—it is seldom done. Harvey Herrick, winner of this year's Santa Monica road race, and holder of the American road race record and the man who won last year's Phoenix race, is picked by many to land his big National a winner. But the Cole, the Marston, the Pope, and, for that matter, each of the sixteen entrants has its following, and all are sure to win.

The list of starters and drivers, in the order that they will leave, follows:

Martwell, Clarence Smith; Pope-Hartford, W. D. Tremaine; Franklin, Ralph Hamlin; Stoddard-Dayton, E. Roger Sterns; Cadillac, W. Brammelt; E. M. F. W. La Casse; Flanders, George Soules; Marcor, Harris Hanchue; Cole, John Jenkins; Case, W. B. Brang; National, Harry Herrick; Buick, L. Vickers; Fiat, Ted Telford; Midland, F. Selfert; Lexington, C. Bigelow; Buick, W. E. Ferguson.

## NEW FOUNDLAND IS IN RECORD BREAKING CLASS

ST. JOHN'S, N. F., Nov. 3.—The revenues of New Foundland are breaking all records, the increase during the last four months having been nearly \$100,000. The governor, Sir Ralph C. Williams, who is just back from a four months holiday in England, was assured by King George that the Duke of Connaught would visit the colony next summer.

## MAN'S BODY FOUND IN CREEK.

SAN JOSE, Nov. 3.—The body of an unknown man was picked up yesterday in a creek near Milpitas. He was dressed in ragged clothes, and there was nothing about him to lead to his identity. The verdict of the coroner's jury was that he had died from heart failure.

## ROOSEVELT FACES CHARGES BY FOSS

Governor Declares the Outlook Editor and Others Violated Statutes.

BOSTON, Nov. 3.—In a letter to District Attorney Pelletier, Governor Foss charges that Chairman Hatfield and the officers of the Republican state committee violated the statutes by appealing to corporations for financial support. The Governor also charges that Theodore Roosevelt and other editors and officials of The Outlook Company, the Boston Herald, the officers of the United Shoe Machinery Company, American Wool Company and Arkwright Club, published, or caused to be published for circulation in this State, political advertising not signed in accordance with the statutes. The advertisements, it is maintained, were antagonistic to the Democratic candidates in the State campaign.

## CUTICURA OINTMENT HEALED BAD SORE

Scraped Flesh Off Bone Below Knee. Suffered So She Couldn't Sleep. Also Says: "I Believe Cuticura Soap is the Best Soap Made."

"Some time ago I was coming up some steps when the board cracked and I fell like an egg shell, and my right limb went through to the knee, and scraped the flesh off the bone just inside and below the knee. I neglected it for a day or two, then it began to hurt me pretty badly. I put balsam fir on to draw out the poison, but when I had used it a week, it hurt so badly that I changed to ointment. That made it smart and burn so badly that I couldn't use it any more, and that was the fourth week after I was hurt. Then I began to use Cuticura Ointment for the sore. It stopped hurting immediately and began healing right away. It was a bad-looking sore before Cuticura Ointment healed it, and I suffered so I couldn't sleep from two days after I fell until I began using Cuticura Ointment.

"Cuticura Soap is the best soap I ever saw. I have used all kinds of soap for washing my face, and always it would leave my face smarting. I had to keep a lotion to stop the smart, no matter how expensive a soap I used. I found at last in Cuticura Soap a soap that will clean my face and leave no smarting, and I do not have to use any lotion or anything else to ease it. I believe Cuticura Soap is the best soap made."

(Signed) Mrs. M. E. Fairchild, 805 Lafayette St., Wichita, Kan., May 8, 1911.

Cuticura Soap and Ointment are for sale throughout the world, but to those who have suffered much, test hope and are without faith in any treatment, a liberal sample of each together with 32-p. Booklet will be mailed free, on application. Address: Potter Drug & Chem. Corp., Dept. 22A, Boston.

## TURKISH WOMEN EAGER TO FIGHT

### The Fair Sex Forget Dress and Jewels in Their Loyalty to Government.

CONSTANTINOPLE, Nov. 2.—Political sagacity is unable to make headway against nationalist passion in the Italo-Turkish war. Ottoman statesmen of the first order know that Turkey's interests dictate a prompt recognition of the loss of Tripoli and a definite effort to secure the status quo in the Balkan peninsula, but the hotheads about the government and the highly incensed mood of the people prevent action.

While the danger of terrible events increases daily, the committee of Union and Progress has forced the government to levy a duty of 100 per cent on all Italian goods. It may follow up this victory by reopening the question of the expulsion of tens of thousands of Italian subjects living in Turkey. Compelling the government to yield to such action certainly would bring the Italian fleet into Turkish waters and might lead the Balkan nationalists to strike the Turks viciously.

### FRONTIER SCENE OF UNREST.

Military and police measures in the capital have been taken with an eye to threatened disturbances and the assembling of crowds is rigorously prevented. The Russo-Turkish frontier is the scene of the constant unrest. The Kurds are alleged to be making preparations to massacre Armenians, and Russia is accused of distributing arms and money among the former. Blood has been shed at Adana, but the exact nature of the conflict is not known here.

Prominent members of the Young Turk party say the war is only beginning. They declare that Turkey is without friends in Europe and that hence it is absolved from consideration of diplomacy. "We supposed Germany was our friend," said an excited Young Turk. "Khalil Bey and Talaat Bey, both former ministers of the interior, said that Turkey was grateful for American sympathy in the hour of difficulty and that the committee would strongly promote American enterprises in this country. An American railway project, which has been promoted here would be presented to Parliament, they said, and would receive the support of all parties."

### ROCKHILL ACQUITS HIMSELF.

Ambassador Rockhill has acquitted himself admirably throughout the crisis and has shown an insight into oriental politics which few foreign ambassadors possess. The presence of an American squadron in the Mediterranean has produced a good impression in Turkish circles. One of the striking features of popular hostility to Italy is the patriotism of the Turkish women.

"All Turkish women," said one of them today, "would like to discard their veils

## Large Ugly Joints

By LILLIAN RUSSELL

(Copyright: 1911: By Lillian Russell.)

COMING downtown the other day my friend said to me: "Just look at that woman's feet." I looked and saw a well-dressed woman with hair in perfect order, a tailor made frock that was trim and stylish, and, being in the mode, it was short and showed most awful looking feet.

"If that woman's feet feel as bad as they look," said my friend, "she must be in misery. I wonder if there is any help for such trouble?" she asked me.

"I am sure there is," I answered, "and I am going to consult my chiropodist about it."

"Any enlargement of the joints at the base of the great toe is popularly termed a bunion," said my foot doctor, "but this is a mistake. There are three distinct diseases of these joints, and the symptoms and appearance of them are so similar that most persons call them bunions and let it go at that. I have known cases where a patient had all three of these diseases of the foot at the same time and in the same joint, and the appearance was exactly like a bunion."

"Bunions, dislocated joints and enlarged joints are all due primarily to ill-fitting shoes, short stockings, pressure, heat, or friction. Rheumatic gout also enlarges the joints and dislocated joints are often due to accidental injury."

"A bunion is an inflammation of the bursa situated over the joint of the great toe. This bursa is a little subcutaneous sack which contains just enough fluid to lubricate its walls, and it protects the bone and the joint. Constant pressure, of course, causes inflammation with the attendant symptoms of redness, swelling, pain and heat."

"The bunion proper is caused locally by the swelling of the flesh at the base of the great or little toe. The constant pressure of the shoe, if too short, too narrow, or too loose in the instep, so as to cause the toes to push forward when walking, will cause a swelling, and the parts affected will become red and inflamed. As the swelling increases the pores on its surface begin to close and a hard, thick skin, studded with little hard corns about the size of a pinhead of larger, cover the bunion. These little points or grains of hard substance press down into the skin and against the nerves underneath and cause excruciating pain."

"The newest and best ideas on the subject of relieving this trouble," continued my chiropodist, "are to use a pad of some soft material that will take the pressure off the bunion. Of course it will be understood that not only your shoes but your stockings must be of the proper size and fit. Some chiropodists use layers of felt and others build medicated cotton up around the bunion and cover it with court plaster to hold it in place."

"In my own practice I use a rubber shield, first having made a plaster of paris cast for the foot and then fitting the rubber to the cast. The rubber is soft and pleasant to the foot and, besides, it has the effect of reducing swelling and inflammation more rapidly than any other thing I have ever used, as it acts as a mild poultice, besides removing the pressure from the affected part. It is foolish to attempt to ameliorate the pain of a bunion oneself, and upon the first symptom the person should go immediately to a competent chiropodist and abide by his advice as to shoes, stockings, and treatment."

"The feet should be given a rest every day and a chance to get air and sunshine. When one is lying down to rest it is a good practice to undress the feet, and when lounging in one's room one may go barefooted for a short time each day with beneficial results. Especially is this recommended to those who have bunions and enlarged joints."

Remember: Healthy feet are absolutely necessary to an optimistic outlook on life.

MARY EMMA—I am very glad to know that you like the cucumber cream. This cream and the skin food are not for the same purpose. The cucumber cream is a cleansing cream and the skin food is for building up the tissues, filling out the face and otherwise helping it. Have you tried dabbling the skin food on your face after using the bleach instead of the cucumber cream? The former would be the best. I certainly think that pancakes for breakfast every morning are harmful to the complexion. Any greasy food eaten every day will make the skin muddy looking and greasy. Of course this does not apply so much if you can get plenty of exercise and fresh air. I should not advise you, however, to partake of this food every morning, as it is certainly not helpful.

MINNIE B.—I do not advise you to change the color of your hair. No woman can dye her hair properly, and hair that looks touched up proclaims her to be something that she isn't. However, when coloring the hair, at any rate be sure and have your hair perfectly clean, as the presence of grease or dirt interferes with the action of the dye. Henna tea is used for staining the hair red or giving it a dark reddish tinge. The henna leaves vary greatly in strength. Two ounces of henna leaves, steeped in a pint of boiling water for an hour and then allowed to get cold. This should make a fairly strong stain, but it is not enough, henna powder can be added and steeped with the leaves. Apply with a small sponge after the hair has been thoroughly washed. Let it stay on several hours, then wash off. If the henna stains the scalp it can easily be removed by soap and water. I shall send you instructions on how to breathe if you will send me a self-addressed, stamped envelope.

### DIVORCEES UNDAUNTED BY FIRST EXPERIENCE

SAN DIEGO, Nov. 3.—The report of Francis M. Moody, secretary of the commission of marriage and divorce, contains some startling figures. It shows that during the last five years 16,775 divorces were granted, 60 per cent of the total have remarried, and in from one-half to two-thirds of these cases the ceremony was performed by clergymen. The report shows that in Los Angeles, Orange and San Diego counties the percentage of divorcees remarried was even higher, reaching 68 per cent. In these three counties during the five years there were 710 divorces and 1848 remarriages.

## LATE J. J. MONTGOMERY'S LIFE WORK AND AIMS ARE PRAISED

## SERVICE IS HELD IN CHURCH

Father J. P. Morrissey of Santa Clara College Delivers Eulogy at Bier

Body Is Taken to San Mateo County, Where Interment Is in Holy Cross Cemetery

Midst the impressive ceremonies of the Catholic church and in the presence of several hundred mourning friends, the last rites for the late John J. Montgomery were held this morning at St. Francis de Sales church, Grove and Jones streets. There a requiem mass was said for the repose of the soul of the noted professor in Santa Clara college, who met his death on Tuesday afternoon while making experiments in the interests of aviation.

Great simplicity marked the obsequies. At the request of the family, no flowers were sent by friends, nor was the service sung in the most formal style. Only a beautiful wreath of laurel tied with royal purple ribbon and two casket sprays of pink and white roses, the offerings of the bereaved family, lightened the dead black of the pall covering the casket. Nor was there a full choral service sung, the organ alone, together with the voices of the celebrants of the mass, being the only sounds of the service.

**EULOGY FOR THE DEAD.**  
The requiem mass was sung at 9 o'clock, the Rev. Father Richard Bell, S. J., a classmate of the dead man, being the celebrant, assisted by the clergy of St. Francis de Sales. Following the mass a eulogy was delivered by the Rev. Father James P. Morrissey, S. J., president of Santa Clara college. This address was short but full of deep feeling for the dead man, who was highly eulogized for his life and services to his fellowmen. Two great purposes in life animated the dead man, said the speaker, his devotion to science, especially to aeronautics, which cost him his life, and his love of and service for his church, of which he was one of the most devout members. Even his devotion to science was contributory to the greater purpose, the religious life, of which he was such an illustrious example. No man had done more, according to Father Morrissey, for air navigation than Professor Montgomery, although he had failed to receive the proper recognition for his work. But this had in no way embittered the man, but had rather strengthened him and made him the more sweet. Father Morrissey spoke of the devoted attitude of the dead man in all his work, of his frequent requests for the prayers of the church for his experiments in science and his daily life, and eulogized him highly for all those qualities which make a man of fine character and virtue.

Following the ceremony at the church, a simple service was held at the residence of the dead man's mother, Mrs. Ellen Montgomery, 1407 Grove street, attended only by the members of the family and the pall bearers. The latter were: Honorary—W. H. L. Hynes, A. J. Snyder, Dr. Owen Bucklin, Charles McClellan, L. A. Redman and Philip Amos. Active—Edward McGary, R. E. Queen, Fred L. Wheeler, H. U. Maxfield, Dr. O. D. Hamilton and Cox Bennett.

Members of the family present at the services included the widow, Mrs. Regina Cleary Montgomery, a bride of a year, the dead man's mother, Mrs. Ellen Montgomery; his brothers, Richard J. and James P.; and his sisters, Miss Mary C., Miss Margaret E. and Miss Jane E. Montgomery.

Interment was private and was in Holy Cross cemetery in San Mateo county, to which the body was taken after the services here.

**WOMAN JURY RETURNS VERDICT "NOT GUILTY"**  
LOS ANGELES, Nov. 3.—The first woman jury in California has returned a verdict and it is "not guilty."

Twelve women of Watts, a suburb, sat patiently yesterday and listened to many witnesses testify for and against A. A. ## GALLANT OLD OREGON IS MECCA

Thousands of Persons Visit Historic Battleship at Los Angeles.

LOS ANGELES, Nov. 3.—An inspection of the famous old battleship Oregon by Rear Admiral Chauncey Thomas for materials and repairs was scheduled for an early hour today at Los Angeles harbor, where the battleship is anchored and where it continues to attract thousands of sightseers early and late.

The cruisers Cincinnati, Raleigh and Buffalo were ordered to weigh anchor today and steam away to San Francisco, where the Cincinnati is to be equipped for the voyage to the China station, a trip which the Raleigh also is expected to take soon.

With those three vessels departing northward and the torpedo fleet ordered back to San Diego for target practice and a probable cruise to Honolulu, the start to be made today, the complete mobilization of the Pacific fleet was an official matter of the past. By tomorrow night the entire fleet will have steamed away from this harbor, the vessels not en route north having been ordered to return to San Diego.

A ceremony arranged for today which many officers of the vessels here attended, was the raising of a granite shaft in Harbor View Cemetery to the memory of the men who were killed in an explosion on the cruiser Tennessee in 1908.

The tug Iroquois and the two submarines, Grampus and Pike, weighed anchor at 9 o'clock this morning, and started back to San Diego. At 11 o'clock the cruiser Maryland sailed for San Diego.

## GET PROPER CHRISTMAS SPIRIT AND SHOP EARLY

The "tang" of Christmas is in the air. Already the children and their elders are looking forward to the holiday season and Santa Claus again reigns supreme in household and mart. Merchants are getting in order their stock of dainty, ornamental and useful articles to tempt the shopper, whether it be father, mother or the juvenile intent on the purchase of gifts.

The show windows are taking on the usual attractive appearance that marks the Christmas season and merchants are ready to meet the demand that may be made upon them. The public is again urged to "do your Christmas shopping early, thereby securing choice of the best selection and incidentally lightening to some degree the tasks of clerks and salesmen who must put in long hours until the close of the season."

Now is the time to begin watching the advertising columns wherein will be set forth the offerings from which to make your gift selections. Do not delay and thereby postpone your Christmas shopping. The longer you put off your pilgrimage to the stores in search of gifts, by just such procrastination you will make irksome what should be a joy and a pleasure.

## Dr. J. Grant Lyman Trial Goes Over for One Week

SAN FRANCISCO, Nov. 3.—Dr. J. Grant Lyman made his usual daily visit across the bay this morning and appeared before United States Commissioner Krull in connection with the fraud charges preferred against him in Los Angeles. Assistant District Attorney McKinley granted a continuance of a week, but Attorney Cook protested and the commissioner ordered that the matter go over only until Monday. McKinley stated that he had no intention of dismissing the charge against the defendant and wanted the continuance so that the matter in Judge De Haven's court might be first disposed of. The commissioner reminded him, however, that even should the action be dismissed now, a new charge could be made against Lyman later.

Packers estimate the Alaska pack at 3,000,000 cases.

## CONVICTS MAY BE POLICE VICTIMS

Former Jurors Certain That Two Prison Birds Are Innocent.

Both Have Served Seventeen Years of Life Sentences for Murder.

CHICAGO, Nov. 3.—Two men have served seventeen years of life sentences for murders of which they were innocent and still are in the Illinois State prison, sacrificed to police desire to "get a conviction," according to the belief of former Judge Henry Freeman, who sentenced them, and to testimony of several police officers.

The men are Charles Kurth and Thomas McNally, sentenced for the murders of Patrick and Peter Prunty. Former Judge Freeman today began active steps to obtain pardons for them.

The testimony of Police Captain John M. Haines and Patrolman August Weber before the pardon board indicated that the police suppressed evidence at the demand of former Captain Joseph Kiple.

Captain Haines says he was reprimanded for expressing a belief in the innocence of the men.

"I was called down," he said, "and I asked the chief if he wanted me to swear to a lie. 'No,' he said, 'but we don't want these wrangles.'"

"I think the evidence which procured their conviction was created by the police and was not truthful, though I did not dream of it at the time," said former Judge Freeman.

## HE BIDS WIFE FAREWELL

Alleged Slayer of Baby Says Living Is Too High to Support Family.

Body of Infant Is Found and Parents Are Accused of Crime.

SANTA BARBARA, Nov. 3.—John Rech, for whom a posse searched all last night after a coroner's jury had charged him with the murder of his two-day-old baby, was recaptured this morning at 6 o'clock when he entered his home to bid his wife farewell.

Sheriff Stewart was in the house and heard Rech enter. He grasped the man, but Rech, a powerful laborer, threw him off and was fleeing when the sight of a rifle leveled at him caused him to halt.

Rech escaped from a deputy sheriff last night while searchers were digging under a barn where later the body of the child was found. The man's first inquiry today was, whether the body had been unearthed. Afterward he refused to discuss his predicament except to mutter that living cost too much for a poor man to support a family.

Mrs. Rech is also under arrest. Although her baby was born only two days ago, she was walking about the house this morning when her husband entered with the announcement that he had come to say good-bye before fleeing to the hills. She has been placed in the county jail with two guards and a nurse.

The finding of the baby's body under the barn last night developed another feature in the Rech case when Sheriff Stewart ordered diggers to work searching for another body. The sheriff issued the order following the discovery that another child of Rech, a daughter, has not been seen for some time. According to the mother the girl is in Italy, but a thorough search of the Rech ranch will be made.

## VEGETABLE DIET WINNING LAURELS

Brothers On Long Hike, Give Meat and Other Food Strenuous Tryout.

DENVER, Nov. 3.—That vegetables are more nourishing than meat is shown by Jesse Buffum and Warren H. Buffum, brothers, who are walking across the continent as an experiment under the direction of Harvard University, and who proceeded from here on their journey toward the Pacific coast today.

One is eating meat and the other vegetables. They arrived in Denver last night and slept on the roof of a local hotel. They have not slept in a bed since they started from Boston, they claim.

When they started west there was but three pounds difference in their weights; Warren H. Buffum, the vegetable eater, is now fifteen pounds heavier than his brother.

## TAFT STOPS TO CATCH HIS BREATH

"Swing Around Circle" Halts for Space at Virginia Hot Springs.

President Has Traveled 13,436 Miles and Made 306 Speeches.

HOT SPRINGS, Va., Nov. 3.—President Taft brought his second long tour of the country to a temporary halt here today. He expects to enjoy a rest in Hot Springs until Monday. According to official figures of the "swing around the circle," kept under the direction of Secretary Hillis, the trip has been the longest ever taken by a President. In going from Beverly, Mass., to Hot Springs, by way of Seattle, San Francisco, Los Angeles, Washington and a few hundred other cities, Mr. Taft has traveled 13,436 miles, beating his own previous record by about 500 miles.

Before he returns to Washington for the winter, the President will visit Ohio, Kentucky and Tennessee, and will add 1834 miles to the record. Mr. Hillis' "swing" figures show that the President passed through twenty-six States and made speeches in twenty of them.

The governor of each State he entered gave him a welcome, and Governor Colquhoun of Texas, a State which was not visited, met him in Kansas. United States senators to the number of twenty-seven met the President at various times. Six of these senators were Democrats and seven were Republicans. About a dozen senators pledged their special support to the arbitration treaties on the trip. Seventy members of the House were on reception committees or welcomed Mr. Taft on his car.

## MADE 306 SPEECHES.

The President has been on the road forty-eight days since he left Beverly. In that time his train stopped at 205 cities and villages. He made 306 speeches of all sorts and lengths, and, according to Mr. Hillis' record, he spoke to more than one and a half million persons, while almost five million caught a glimpse of the chief executive.

The greatest number of stops in any State was made in Kansas, where Mr. Taft delivered thirty-three addresses, four more than he made in Washington, the nearest competitor. Chicago heard him speak eleven times, Los Angeles ten times and St. Louis six times, but many cities got only one address, and at scores of stopping points it was only a "good morning and goodbye" from the rear platform.

## MARY L. BREWER PLEADS NOT GUILTY TO MURDER

She is represented by Attorney Linn S. Church.

SOCIALIST WAR  
INVOLVES WOMAN

Mrs. John A. Wilson, Wife of  
Councilman, Denies Seces-  
sion From Regulars.

BERKELEY, Nov. 3.—Formation of a new Socialist club, composed of members opposed to Mayor J. Stitt Wilson, is scheduled to take place next Tuesday evening. Among those interested in the proposed organization are C. J. Staley, John Ogden and J. H. Wilde.

These and other members of the regular Socialist branch have started a movement to secede from the organization which meets at the Coffee Club on Oxford street, and are to establish headquarters elsewhere.

Leaders in the main local criticized some of the acts of Mayor Wilson soon after he assumed office, but the municipal executive succeeded in stemming the tide of hostility and the waters were supposed to be permanently calmed until further agitation began yesterday.

C. J. Staley, who is heading the opposition to the mayor, interviewed Mrs. John A. Wilson, wife of Councilman Wilson, and tried to persuade her to join the Socialist branch, in an effort to enlist her in the secession movement.

Mrs. Wilson declared this morning that her name was used by Staley without authority as one of those about to leave the local organization, but admitted that she had advised him and others among the insurgents to meet at another place, as they are at war with the peaceful element in the branch.

"I expect to remain with the regular Socialist local as its treasurer," said Mrs. Wilson this morning.

NO CONTEST IN THE  
CROSS-COUNTRY RUN

UNIVERSITY OF CALIFORNIA, Nov. 3.—On account of the small number participating in the interclass cross-country run yesterday afternoon, no class can fairly be called winner. No man was entered by the seniors, and only one man was entered by the freshman class. The other two classes were well represented, however.

Taking the men in the order that they finished, the sophomores seem to have the advantage of the juniors. The results were: L. S. Rathbone and J. E. Ziele tied for first; J. B. Wright, third; W. D. Hiney, fourth; E. R. Crabbe, fifth; F. S. Miller, sixth; M. L. Zoller, seventh.

UNIVERSITY OF CALIFORNIA, Nov. 3.—With a dress rehearsal yesterday afternoon the final touches were placed by the coaches upon the work of the student cast which will present "When Johnny Comes Marching Home" at the Idora Park theater this evening.

The singing of Henry A. Stern, playing the leading role of Colonel John Graham, promises to be a big surprise. He has never before tried out for any of the college musical productions, and the possibilities of his fine bass voice were not discovered. He is a member of the Delta Upsilon fraternity.

Doyle followed the first speaker with a tale of the hardships and privations of Death Valley, from which place he has just returned. Doyle is connected with the Pacific Bore Company and Morgensen is an officer of the Pacific whaling fleet.

After the speeches an informal talk was held in honor of the new members.

CHILD ATTEMPTS  
TO END HER LIFE

15-Year-Old Hilda Anderson  
Swallows Poison When  
Caught Stealing.

BERKELEY, Nov. 3.—Fifteen-year-old Hilda Anderson, of 2002 Parker street, who was involved a week ago in an alleged white-slave adventure in Oakland, appeared in the juvenile court this afternoon, following her attempt late yesterday to kill herself by swallowing carbolic acid, when caught in the act of stealing articles of clothing from the residence of Mrs. H. Lemp, 1700 Piedmont avenue, where she had been employed as a domestic.

After the release of Mario Logorio, an Oakland bartender, who was accused of having led the girl astray, she returned to this city. On being coldly treated by her father and brother, she left her home last Tuesday and obtained employment in the Lemp household.

Mrs. Lemp discovered Hilda in the act of leaving the house late yesterday with a suitcase filled with dresses and a pair of gloves which had been taken from Mrs. Lemp's rooms. After receiving a severe reprimand from her employer the girl went into a room and swallowed a half quantity of carbolic acid, which she apparently had concealed on her person. Her suicidal attempt is believed to have been the result of her supposition that Mrs. Lemp intended to turn her over to the police, on account of the attempted theft.

In a semi-conscious state the girl was taken by police officers to Roosevelt hospital, where she was revived within an hour and placed out of danger. She was then taken to the detention home in Oakland. Her case is to be disposed of by the probation officer and juvenile court.

The physician said the wounds had not been inflicted more than 15 minutes before Vallier's removal from the coach. ## Overwork and Worry

A little worry does a great deal of harm. Overwork and worry give rise to nervousness, headaches, sleeplessness, lack of ambition, lack of interest in your work, weak back, indigestion and sometimes a complete breakdown of the nervous system. If these are your symptoms, you need a tonic. The best way to tone up the nerves is through the blood. Dr. Williams' Pink Pills for Pale People are a direct nerve tonic because they enrich and build up the blood. Under their tonic influence nervousness and all the other evils of worry and overwork quickly disappear. They restore the digestion and enable the body to take full advantage from the food eaten.

Mrs. R. B. Stethers, of No. 506 Beach street, Redwood City, Cal., says: "I can truthfully recommend Dr. Williams' Pink Pills for Pale People, for they cured me. I was completely run down and so nervous that the crying of my baby would nearly drive me wild and any little noise would startle me. I couldn't sleep and would imagine I could see things before me which were not there. I had no color in my face. I was so pale that you would have thought I had consumption. I had splitting headaches and was dizzy at times. I was languid and felt tired out all of the time. I had tried iron and other medicines, but they didn't seem to do any good, so one evening my husband brought home a box of Dr. Williams' Pink Pills for Pale People. I took six boxes and felt so much better that I took six more and was completely cured. Now my nerves are as strong as can be. I am very thankful for the good Dr. Williams' Pink Pills for Pale People have done me. I hope my statement will be of some help to some one."

Dr. Williams' Pink Pills for Pale People are the one true tonic. They are guaranteed to be free from any harmful or habit-forming drugs. They have given the most gratifying results in nervous headaches, neuralgia, nervous dyspepsia, St. Vitus' dance, and even in partial paralysis and locomotor ataxia. For a full statement of this treatment write for the free booklet, "Diseases of the Nervous System."

Start today to cure yourself with Dr. Williams' Pink Pills for Pale People. They are for sale by all druggists, or will be sent, postpaid, upon receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

### CLERK OBJECTS TO 'PHONE CALLS

Piedmont Official Protests On Being Interrupted While at Dinner.

PIEDMONT, Nov. 3.—At the regular meeting of the board of city trustees held at the fire-house Thursday evening the monthly bills were inspected and a portion of them ordered paid.

Trustee Monsen said that residents living near the pump house and Peoples Water Company on Oakland and Grand avenues, were inconvenienced by noise and smoke. The clerk was instructed to write the company asking that it remedy the so-called nuisance.

President Craig took exception to the fact that Clerk Staiger insisted on having his home phone number in the name of another member of his family, giving as his reason that he desired to enjoy his dinner without constant interruptions. Craig considered a man's dinner is of minor importance where affairs of the city are at stake, and stated that he would put out his dinner until midnight rather than evade a telephone call.

The other members of the board had a fellow feeling for Clerk Staiger and after after President Craig had expressed himself fully and freely on the subject, the matter was compromised by the clerk supplying the board with a card stating his residence phone number.

NEW FIRE CARD.

The Clerk was ordered to get out a new fire card, said card to contain, in addition to the fire-house phone number, the phone number of the City Marshal and the name and number of the fire officials. These cards are to be distributed to every home in Piedmont.

The office hours of Clerk Staiger were fixed from 8:30 a. m. to 12:30 p. m. to be employed in attending to the outside affairs of the city.

A motion was made requesting the Rickon Ehrhart construction Co. to clear away the machinery and debris left on lots adjoining the new bridge on Oakland avenue.

In response to a petition the City Engineer was instructed to fix street grade on Ortega avenue from Monte to Broadway.

Motion was carried to instruct Clerk Staiger to address a letter to the Oakland Traction Co., asking it to repair street between car tracks on Verdi avenue.

An application for a street light on the corner of Vernal and Magnolia avenues was referred to the Street Committee.

Permit was granted to erect highland avenues from Mountain to Sierra, avenues was granted H. M. Maxwell.

MUST EXPLAIN TO BOARD.

Albert Williams, contractor, was ordered to appear before the board and explain why he had laid the pavement on Oakland and Fairview avenues without permission from the board.

A culvert was ordered laid at the head of Oakland avenue at cost not exceeding \$800 to be paid jointly by property holders in the vicinity and the city of Piedmont.

The resignation of City Engineer P. A. Hayward was read, also that of Deputy City Engineer O. W. Jasper.

## BAKES OPERATE WITH SHORT CREWS

Walkout Follows Employment of Non-union Men at the Larger Establishments.

A strike that was declared this week on the local bakeries employing non-union men, and which resulted in a walkout, has made it necessary for the concerns affected to run short handed, and today a number of them have operated for the first time, though with short crews.

The former non-union crews, joined the union and refused to continue in the employ of the bakery companies unless the union was recognized. In all, more than fifty men have been affected. The French Bakeries Company, one of the largest concerns on this side of the bay, lost twenty men by the "walkout" and are still operating with a small force.

The men claim that the employers have refused to grant a six-day week and maintain sanitary conditions. There are some fifteen French bakeries affected. At the establishment of J. Cassou, 811 Clay street, all the men except 10 drivers walked out.

## AVIATOR COOKE MAKES FLIGHTS

Circles Field at Foothill Boulevard and Hillside Avenue Today.

BERKELEY, Nov. 3.—W. B. Cooke, a young aviator, made several successful flights this morning, each of about ten minutes' duration, arising into the air over 100 feet and circling a large field at the Foot Hill boulevard and Hillside avenue. Cooke had a powerful Curtiss biplane, the same machine in which he flew over Lake Merritt in Oakland on Columbus Day. The birdman is camping here, trying out his engine after circling Lake Merritt successfully, the machine plunged into the water.

Cooke lives at 224 Magnolia street, and is one of the "rising birds" of this section. His evolutions this morning brought out a small crowd of curious people to witness any further flights the aviator might make. From here Cooke expects to go to the Motordrome.

Provoked by the amount required in the requisitions read by Superintendent of Schools J. W. McClymonds at the regular meeting of the board of education last evening, the board of education, which was called to order by Superintendent McClymonds, stated that it was utterly impossible to meet all the demands of the board, and that it would not provide for certain items, namely, \$400 for the band of the Durant school, and \$100 for the band of the Durant school, and \$100 for the band of the Durant school.

In speaking about granting the requisitions, Director M. Brown, stated that he did not want to see his financial report at the end of his term and said he would carefully consider all the requests.

"The band is better than any physical apparatus you may purchase," declared S. S. Dunbar, principal of the Durant school, who asserted that the boys were very enthusiastic and derived great pleasure from the instruments. "It has awakened more interest than any of the other diversions and is benefiting the children," said Dunbar.

"MONEY IS NEEDED." "I'm in favor of the band, but not without the money," said McClymonds. "Not one question was raised about any other item," said Director Harry Boyle, "and I do not see why they should so much noise about the requisition of the band. I think the children benefit by it."

The argument ceased when Dr. A. S. Kelly reminded the board that the matter had been placed on the agenda of the finance committee, and the directors proceeded with the business of the session.

The report of Director Annie Florence Brown, chairman of the elementary schools' committee, requesting the assistant superintendent to make written reports, at least once each term of all the principals and teachers in the grammar and high schools, and exhibit the accounts in the rooms of the board, caused considerable discussion for and against the plan.

"Many teachers could be saved by this method," said Miss Brown. "By this system we will keep a record of the good points as well as the bad in the teachers and will assist them in correcting the errors in discipline and other things. It has been tried in the southern part of the state and has worked successfully and I do not see why it will not be a success in the local school department."

"PREDICTS TROUBLE." "You will have your hands at the end of the term," said Superintendent McClymonds. "There will be considerable dissatisfaction and annoyance, I fear, if the teachers see their imperfections, bad qualities as well as the good exposed to the public gaze. If it improves the teachers, I am in favor of it."

"It's a good scheme for teachers who get into trouble," said Dr. Kelly. "We should burden ourselves with reports of teachers who are doing their work well? It appears to be needless. I would not want to be bothered with it. At the beginning of the school term I could not find a written word about a certain teacher who was transferred. I wanted to find out why she was removed from one school to another. It seems to be a matter of justice to the teachers, that some report be kept as to why they are transferred."

## SURGEON INDORSES NEW HEALTH IDEA

Simplicity Marks the Modern Method of Healing, Says Doctor.

The new method of healing disease, which has been creating wide comment since its recent introduction from the East by the Latham physicians, gained another noted adherent yesterday in Doctor Callender, of 1058 Thirtieth street. Doctor Callender is a former surgeon of the United States army and is well known in professional and social circles in Oakland.

Speaking of the many remarkable cures attributed to the new form of medical treatment Doctor Callender said: "I have closely studied this new Latham method since its discovery, and have watched cases treated by it, and in my judgment it is the greatest step forward in medical practice within my experience. I have personally known cases of the most serious illness to yield to it when other methods had failed. 'Specific medication,' or the giving of medicines which have a positive effect on the symptoms of disease, is the basis of this new practice. Common sense and simplicity is the keynote of this theory. The old fashioned method of doing a patient with dangerous concoctions gives way to a rational and sensible treatment."

"Take the common complaint of stomach trouble, which causes half the illness of today. When a patient has any form of stomach trouble his food does not properly digest. Instead, it lies actually decaying in the body, causes gas formation, headaches, nervousness, palpitation of the heart, kidney trouble, blood diseases and constipation. Now, a sufferer from these symptoms usually does one of two things—he lets the trouble run on, poisoning his whole system, making him feel miserable and sick all the time and gradually getting worse until his health is permanently wrecked. Ulceration of the stomach, which is almost incurable, often results. On the other hand, if he takes any of the old method treatments, he is apt to make matters worse by drugging himself for temporary relief. Cathartics are the worst possible things to take. They do no permanent good and if used too much will cause paralysis of the bowels and death."

"In cases of this sort, as in all other ailments of the human body, this Latham treatment works like magic. I have myself seen cases of stomach trouble, which had lasted for years and seemed hopeless, improve within a few days after beginning the Latham method and become entirely cured in an astonishingly short time. Cures effected in this way are permanent as well. Naturally I am glad to endorse this treatment."

Thronging have been calling at the Latham offices in Oakland, 83 and 84 Bacon building, Twelfth and Washington streets. Many are patients returning to describe remarkable benefits received. A staff of expert physicians is maintained at these offices to give free advice and consultation and explain the new method to all who call. Office hours are from 9 in the morning to 8 in the evening, week days, and until 8 o'clock Saturdays.

## ENRAGED HUSBAND REFUSED TO BE INTERRUPTED

"I'm 'Phoning to My Wife,  
Shoot for All I Care," Says  
Man to Robber.

## GUN PLAY FOLLOWS IN WHICH THREE JOIN

Spouse Hearing Shots Alters  
Tone of Anger to One  
of Fear.

While engaged in a telephonic altercation with his wife, Christ Hendricks, at the saloon of Fred Jochem, 1352 Tenth street, became so enraged with his spouse that when a thug entered the place and leveled a revolver at his head, commanding him to hold up his hands, Hendricks told the burglar to do his worst, and continued to harangue his wife over the wire. As a result Jochem, who heard the sound of high words, came to the rear of the place to see what was the matter, discovered the burglar and drove the marauder from the store at the point of a revolver.

The affair occurred shortly before 7 o'clock last evening. Hendricks was late for his supper, and telephoned to his wife to explain matters, using the booth in the rear of the Jochem saloon. While thus engaged, a thug, masked and armed, entered the place.

"Hold up your hands," he ordered, leveling his revolver at Hendricks.

"Go ahead and shoot for all I care," replied the enraged husband. "I'm talking to my wife."

THUG SURPRISED.

The thug was amazed at this treatment and stood inactive for at least a minute, during which he was discovered by Jochem, who had come to investigate the trouble. Jochem got his revolver, and poking it through the swinging doors between the front and rear of the store, ordered the man to surrender.

Totally nonplussed by being thus caught between two fires, the masked burglar backed his way out of the store, taking four random shots at his intended victims on the way out.

"What's all that noise?" came a voice over the telephone.

"There's a burglar taking a few shots at me," cried Hendricks, now somewhat excited over the turn things had taken.

The voice that had been lecturing him for being so suddenly changed to a tone of piteous distress, as Mrs. Hendricks pleaded to be informed that Hendricks had not been shot.

"I'm all right," he said. "I'll be home in a few minutes."

Jochem and Hendricks congratulated each other over the bar, and then rang up Captain Charles Cook to tell him of the affair. Then Hendricks went home to the comfort of his own fireside.

## DR. FRIEDLANDER RE-ELECTED FOR FIVE-YEAR TERM

A. JONAS.

## NEW PRAYER BOOK HIGHLY PRAISED

Revision May Be Adopted by  
Central Conference of  
Rabbis.

Rev. Dr. M. Friedlander, who has been head of the First Hebrew congregation for the past eighteen years, was re-elected at the annual meeting of the officers and board of directors held last evening in the vestry room of the synagogue, for a five-year term. His election was unanimous, and the work he had accomplished in revising the union prayer book was highly commended. The chief business of the meeting was the election of officers for the year, which resulted as follows:

Abraham Jonas, president; vice-president, Morris Schneider; secretary, Mervyn J. Samuels; treasurer, Frank A. Rittigstein. Directors—A. S. Lavinson, Bert Altmayer, Judge Samuels, Frederick Kahn, Max Marcus and A. Shaffran.

BOOK SATISFACTORY.

Great satisfaction is being displayed in the union prayer book, which was used for the first time during the last holidays in the First Hebrew congregation. Abraham Jonas, who has been president of the congregation for many years, assisted Rabbi Friedlander in the revision of the holy book. According to a letter received from Dr. William Rosensau, of Baltimore, one of the members of the central conference of Jewish rabbis, it will be recommended for adoption by that body. The communication from Dr. Rosensau was read at the meeting. It follows:

JUDICIOUS SELECTION.

"The additional Hebrew material has been judiciously selected, and the English texts supplied are most excellent," writes Dr. Rosensau. "Were my own congregation of the central conference of America to ask me to revise the book or to make suggestions looking to the improvement of its ritual, my suggestions would in all probability be the same as Dr. Friedlander has indicated for your use."

President Jonas suggested that the new board of directors arrange plans for a new temple on the site recently purchased by the congregation and for the sale of the present site.

BURGLAR GETS ONLY

C. O. Edwards of 3989 Howe street reported to the police this morning that a burglar had entered his residence by forcing the rear door with a jimmy. The place was ransacked and a pair of field glasses, two small banks and other articles of small value were taken. The total loss amounts to about \$20.

## MUSTO GETS FOUR BARRELS OF WINE AND A LOT

And Mrs. Musto-in-the-Past  
Tense Is Awarded the  
Children.

## COMMON-LAW MATCH COMES TO AN END

Affinity Blamed for Wrecking  
of the Once Happy  
Household.

During 12 years of association in common law marital relationship, Veto Musto, a laborer residing at 674 Third street, and the woman who has informally borne his name, accumulated two valuable lots, eight barrels of old wine and two children. With this stock in trade the couple resolved to dissolve partnership yesterday when they appeared before Prosecuting Attorney William J. Hennessy, who presides over what is familiarly known about the city hall as "Department No. 3," the department in which Hennessy holds court in the cases that are settled amicably or otherwise without going to trial.

The dissolution of the happy but not legally sanctioned marital affair has resulted from the intrusion of a tertium quid in the person of one Giuseppe Passola. Passola is alleged to have lashed the gold of true affection upon Mrs. Musto.

MUSTO DISPLEASED.

The situation failed to please the redoubtable Musto, and in an altercation early yesterday morning he is said to have attacked the woman with a revolver, only to be disarmed by the alleged affinity. Late in the afternoon, it is alleged, he went after her with a large butcher's cleaver, but succeeded only in burying this in the door.

The couple came before Prosecuting Attorney Hennessy after Musto had been taken into custody, and Mrs. Musto was seeking a warrant for his arrest. Hennessy is officially attorney, and in that capacity he issues warrants on complaint. Unofficially he holds a little court all his own in the office adjoining the courtroom, and many a case is settled in "Department No. 3" to the satisfaction of all parties concerned, which would mean time, expense and attorney's fees if handled less intelligently.

Hennessy quickly discovered that the real desire of the two was for a separation, and as the particular form of matrimony in which they had experimented permitted of easy separation without formal action, he proceeded to act the part of the King Solomon in dividing the community wealth. To Musto was assigned a building lot and four barrels of old wine. To ex-Mrs. Musto was assigned one lot and four barrels of wine. On the promise that she would not seek alimony, Mrs. Musto-in-the-past-tense was given custody of the two children.

## WOMAN PHYSICIAN DIES AT 83 YEARS

Dr. Carrie F. Young Passes  
Away at College City  
Home.

BERKELEY, Nov. 3.—Dr. Carrie F. Young, a retired physician, died today at her home, 1928 Francisco street, at the age of 83 years. She had been ill for many months. Dr. Young was the mother of Robert Bush, a well-known civil engineer. Her husband died many years ago. She was a native of New York.

The funeral services will be held next Sunday afternoon at 3 o'clock from the First Presbyterian church, the remains to be shipped later to St. Helena for interment.

Dr. Young had resided in Berkeley for thirty years and in California for forty years.

Dr. Young was a pioneer suffragist of this State, and it was through her efforts that women were admitted as students in the University of California in the early days of its history.

Although seriously ill, Dr. Young was sufficiently conscious the day following the recent election to learn that woman suffrage, for which she had been fighting for many years, had won at the polls.

Dr. Young graduated from the Oakland College of Medicine in 1884.

## KNOWLAND TALKS ON CANAL WORK

Congressman Delivers Lecture Before Members of Oakland Lodge of Elks.

Elks hall was crowded last evening with enthusiastic Elks, members of Oakland lodge, who turned out to hear Congressman Joseph R. Knowland deliver his popular illustrated lecture on "Completing the Panama Canal." Congressman Knowland is a member of Oakland lodge No. 171, and his brother members extended to him a most enthusiastic greeting. When Assistant District Attorney Hynes, exalted ruler of Oakland lodge, introduced the speaker every available seat in the lodge room was occupied.

With closest interest the members followed the speaker, who was frequently applauded. Congressman Knowland displayed a thorough knowledge of conditions upon the isthmus. He has made a careful study of the many problems connected with the great work, being a member of the Congressional committee that handles canal legislation. He has made three trips to the canal, and in December will again visit the scene of activities.

Speaking of the benefits to the Pacific Coast which would result with the opening of the great waterway, he said: "The distance between New York and San Francisco by water will be shortened by 7812 miles. European ports are now, in round numbers, 14,000 miles from the Pacific Coast. With the opening of the canal this distance will be cut in half. The efficiency of our navy will be doubled, because we will have one great American fleet instead of the present Atlantic and Pacific fleets of the present California. The products of California will reach markets from which they have been barred because of excessive freight rates. Our fruits can be shipped to eastern markets in steamers fitted with cold storage facilities."

In concluding the speaker declared that the completion of the canal would be recognized as the greatest achievement of the age.

Its seating capacity is only about 250 people, and it is expected that it will be filled by those who are personally interested or the general public would be gladly invited. Representatives of the press are, of course, invited.

## Berkeley to Tackle Olympics Tomorrow; Coffroth May Stage Hogan and Murphy

### HOGAN AND MURPHY MAY BE THE NEXT CARD OF COFFROTH

#### One Rounder Pulls in Horns and Shows Signs of Wanting to Come West to Meet Harlem Tommy

Harlem Tommy Murphy and "One-Rounder" Jack Hogan may be the November card before Coffroth's Shasta Club. Gil Boag, a New Yorker who is managing the California lightweight, has recovered from his desire for excessive guarantees, and, according to several wires that were received yesterday, is quite willing to come to reasonable terms.

Naturally it remains to be seen whether Tommy Murphy is still of a mind to come to the Pacific Coast for a scrap on Thanksgiving night; but, unless he has changed his mind, that is the bout that will probably be featured.

Boag's telegram to Coffroth were all of the same tenor: "Send us tickets and we will take the next train for California."

Evidently Hogan has reached the con-

clusion that there is not so much money in the boxing game in New York State and is quite willing to hit his home town once more.

It might not be the biggest card in the world, but Murphy made so good a showing here against Owen Moran that the crowd would turn out to watch him, and Hogan has a host of friends.

### PAPKE SHOULD HAVE DONE THIS MANY YEARS AGO

CHICAGO, Nov. 3.—Billy Papke has quit the ring. The "Thunderbolt" said so yesterday on his return from Boston, where he was trimmed by Bob Mohr. Papke was in town just long enough to tell of his retirement, then left with Brother Ed for his Kewanee home, where he plans to stay.

Papke frankly admits that he thinks he is through as a fighter and deems it the wisest move to quit right now instead of trying to "come back" and taking useless beatings.

For the third time the representatives of California and Stanford universities met last evening and again no decision was reached as to the party who is to be in charge of the annual contest between the colleges on November 11.

Many of the favorite choices have been handed out by adherents of the two colleges but it is a noticeable circumstance that those who attend the meetings and know something about the men who have been discussed haven't a word to say. If they say as little at the meetings then the gatherings must be like the assembling of the alumni of a deaf and dumb institution.

### CRACK ATHLETES OF ENGLAND MAY COME TO AMERICA

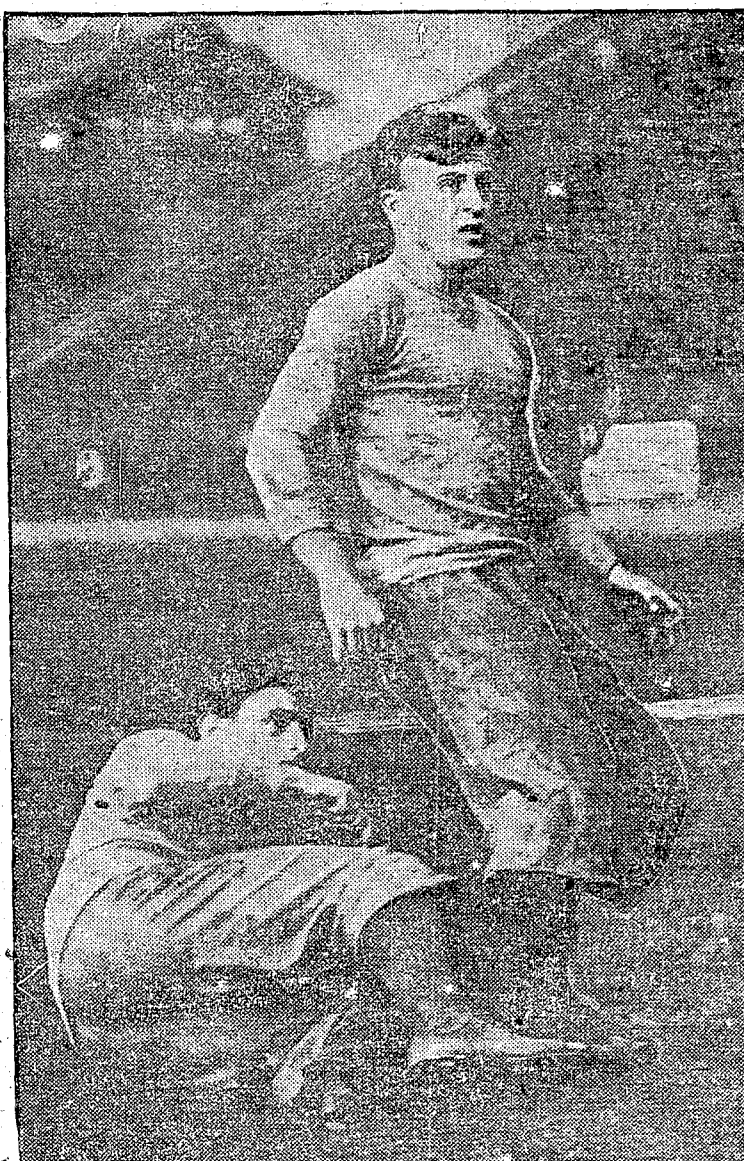

NEW YORK, Nov. 3.—It is announced here that Oxford and Cambridge universities are planning to send a team to America next season for an international match with Yale and Harvard.

Letters from President Baker of the Cambridge Athletic club indicate that the Englishmen want to come early in June, so that they can be home in time for the Olympic games at Stockholm. Very likely the first week in June will suit the Yale-Harvard men, as it will be just after the intercollegiate championships when the athletes will be keyed up to their best form.

It is not known where the match will be held, but the chances are it will be on neutral ground somewhere around New York.

HURLBURT 26, BUCKMAN 9. SAN FRANCISCO, Nov. 3.—Hurlbut had an easy time of it against Buckman in the third cushion billiard tourney at the Gracely last night by the score of 26 to 9. The game was the rapid work and brilliant play of the winner. This evening Covey 23 and Delta 22 will play.

### FUN WILL RUN RIOT AT I. Y. C. HIGH JINKS TONIGHT

Talent From All Over the World to Cut Loose for Glory of Occasion.

SAN FRANCISCO, Nov. 3.—The full program of the winter circus and jinks to be held by the Indoor Yacht Club in the Auditorium rink tonight has been announced, and, judging from the various numbers, there is plenty of good times in store for the guests of the evening. The program:

San Francisco, the City That Knows How. (First time anywhere.) The Kreling, leading Olympic club chorus; "All-arounder's Rag Time Band" and parody, both by the Kreling. The Kreling, leading chorus; "The Old Town Is Looking Mighty Good Tonight." Nellie Hurley and chorus; monologue, monologue, Edward Britt; "Gladiatorian Surprise." H. Keegan Monahan, General Alphonse, "The Millionaire." Mike Levy, Bob N. alius; "A Texas Tommy." Frank Hill, Ethel Wilson and Vera Hall; Bob Mitchell, the "Inimitable" Willie Nelson. "Come All San Francisco," impersonations of Al Jolson, Stella Mayhew, Fay Templeton, Tom Lewis and Harry Fisher, by Oscar Shultz. "The Captain's Verber." I. Y. C. choir: "The Moon Song." Below: "The Millionaire." George Collett; "Our Mid-Winter Cruise" (I. Y. C. 1911), by descriptive poem written and staged by the American American theater beauty chorus, Al Tint, Gus Erdman, George White, Evelyn Keller, Freddie White, Julie Betty Clifford, Steve Douglas, Walter Bailey and Ida May, main event, an I. Y. C. Surprise (a three star special).

### EWING TALKS, AND IT LOOKS IF HE IS TO PUT UP FIGHT

LOS ANGELES, Nov. 3.—J. Cal. Ewing, part owner of the San Francisco team, arrived yesterday morning to confer with Henry Berry regarding the "National Commission."

"The Coast League intends to put the matter squarely up to the big league managers. Not only as the purchase of the draft pick, but the object of giving us the same rights the major leagues have to secure players in the low us," said Ewing after the conference.

The Coast League is really very strongly favored, having the draft price raised from \$1500 to \$2000. Now the big leagues that buy our men in the middle of the season and the players in the club who are not wanted at the end of the season without being subject to draft. On the other hand, the minor league clubs have to take a player in the middle of the year and he must report in three days to the club. There is no justice in this.

There will not be eight teams in the league next season because it would probably be unbalanced for one reason and uncertain for another.

### TOM JONES SAYS THAT WELLS WON'T BOX WOLGAST

MILWAUKEE, Nov. 3.—Lightweight Champion Al Wolgast and Matt Wells, welterweight champion of England, are not likely to meet in boxing contest, according to a message received here from Tom Jones, Wolgast's manager.

"After making a trip to New York, I am convinced that Wells does not want any of Wolgast's game," Jones said. "He conceded every point to him and accepted the terms of the fight in New York, but they could not induce Wells to enter in a reasonable proposition. We will wait to see what Wolgast has to say, but he will be ready to meet him any time after the Welsh bout in California."

We leave Cadillac today for Los Angeles, where the bout is to be held. We will meet all contenders."

### WHEELMEN ORGANIZE TO SEND TEAM TO OLYMPIAN GAMES

NEWARK, N. J., Nov. 3.—The United Cyclists, a newly formed body for the popularization of wheeling, is planning to send an American team of cyclists to the Olympic games at Stockholm. The big Olympic wheeling event would be a road race for 200 miles around Lake Mater.

The race will be partly team and partly individual and the number of contestants will be taken from the best places. The four from each aggregation will be considered a team.

### YALE BUYS LAND AS ADDITION TO STADIUM

NEW HAVEN, Conn., Nov. 3.—Walter Camp, Yale's athletic advisor, purchased two large parcels of land and added to the present Yale field as a part of the site for the proposed new Yale stadium.

### Iron Man Sells Out

NEWARK, N. J., Nov. 3.—Negotiations were completed yesterday afternoon for the sale of the Newark baseball club by Joseph J. McGinley and Henry Clay Smith to William A. McManus of this city.

The price is close to \$60,000. McGinley will leave the club, both as manager and player.

AX RALLY WEDNESDAY NIGHT. The ax rally at the University of California, which always precedes the football game, will be held next Wednesday evening. According to custom, the ax will be taken to the resting place to form the center of the rally, and will be transferred to its new custodians, Chester Allen, captain-elect of the varsity, and a member of the team. Fifteen, is the present custodian of the ax, and will name his successor next Wednesday evening.

PAT DOUGHERTY MAY RETIRE. NEW YORK, Nov. 3.—Pat Dougherty, outfielder for the Chicago White Sox, yesterday sold his interest in the A. I. Kelley & Co. oil lease near Bolivar, N. Y., to Miss Kelley. It is said here that Dougherty will retire from baseball and go into business on the Pacific coast.

BENICIA BEATS VALLEJO GIRLS. In reply to the challenge of the girls basketball team of Vincent's school of Vallejo and the claim that they have not been defeated in two years the Benicia academy team lays claim to a victory over the Vallejo team on May 1, 1911, by a score of 35 to 9.

QUEAL SEEKING RUNNING MATCH. Billy Queal, the American long distance champion, is looking for a match against Corn Lawlor, the Irish champion, for Thanksgiving day in New York. Queal has not Longboat and Shrubbs before, but both the Indian and the Englishman have made the American step some to win.

### U. OF C. LOOKS TO HAVE THE BEST OF IT WITH STANFORD

#### Cardinal Team Not Playing as Good a Game as California in Preliminary Contests on Rugby Field

By BERT LOWRY.

Now that both Stanford and Berkeley have shown their skill and worth against the British Columbia Rugby teams, a fair opportunity has been given the followers of the two teams to judge them. Those that follow Rugby as a matter of sport and have no feeling and enjoy the game for the sake of the mind and opinion that the squad from the University of California has all the best of it as to talent.

On the showing of the California players in all their preliminary games, and especially in their contest against the invaders from the north, the Blue and Gold squad is undoubtedly the best all-around team, and if the same conditions prevail on November 11, as do now, partisans of the game look for the University of California to come home, as the saying is, an easy winner.

One fact, though, is lost sight of by the critics and that is apt to make a

### TICKET SALE TO BIG RUGBY MATCH IS BANNER ONE

STANFORD, Nov. 3.—All seat records have been broken for football games at the University of California. Graduate Manager Burbank announced yesterday that every \$2.50 seat has been taken in the corner sections of the stadium, San Francisco, or Palo Alto.

There are about 1200 of the \$2 seats left and these will go on sale here today. They are in the corner sections of the stadium. Manager Burbank has held out 15,775 tickets as Stanford's share, and expects these to be entirely sold by noon yesterday. In fact, the tickets reserved for the alumni were all sold by noon yesterday.

### HARVARD WILL SEND STRONG TEAM TO GET PRINCETON

CAMBRIDGE, Mass., Nov. 3.—Harvard's line up in the game against Princeton tomorrow will be as follows: Smith, left end; Hitchcock, left tackle; Left guard; Storer, center; Fisher, right guard; Gardner, right tackle; Storer, right end; Porter, quarterback; Campbell, left halfback; Wendell, right halfback; Huntington, fullback.

### CENTURY CLUB MEMBERS TO RACE Y. M. C. A. BOYS

A 12-man relay race between teams from the Oakland Century club and the Business Boys of the local Y. M. C. A. will be held on the indoor oval at the latter's gymnasium tonight. The distance to be run is one mile—26 laps.

The men entered follow: Y. M. C. A.—G. Moore, H. Haasloop, C. Case, F. Kendall, H. Abbott, L. Abbott, L. Hicks, C. Gustafson, H. Hermanson, E. Reller and G. Rufford.

Century club—G. McGue, E. Smythe, T. Baccocchi, H. Cawley, L. Hughes, J. McGann, W. Baccocchi, H. P. McGann, C. Johnson and two others to be chosen from four competitors for the positions.

### ST. MARY'S RUGBYITES WILL TACKLE BARBS

A Rugby contest that will undoubtedly attract a large crowd will be furnished by the varsity 15s of St. Mary's and the Barbours, to be played on the local field tomorrow afternoon. The game will mark the initial one in which both teams have met, and judging from the past performances of the 15s close play should be afforded.

Saturday's game with the Barbs will mark the closing of the preparatory season at St. Mary's. From thence on until the day of the "Varsity" by the side of Clara college, the local squad will devote their activity to conditioning and roundness into fighting shape.

The crowd of the season turned out at the Oakland allies last night and saw one of the greatest games of duck pins ever rolled in Oakland. The J. P. ### SPECIALIST

The true specialist is a physician who is absolutely expert in the treatment of a few ailments. He knows all about the few ailments he treats and he treats them with the same certainty with which the general practitioner treats the most common ailment. For twenty-five years I have been treating men's disorders. I began my special work after thorough preparation at the best medical colleges and hospitals in the country, and have perhaps cured more men than any other specialist in the West.

Every case I treat is cured thoroughly. My patients have no relapses. When I pronounce a case cured there is not a particle of infection or disease remaining. There is not the slightest danger that the ailment will return in its original form or work its way into the general system. Some ailments are less serious than others, but none are too trivial to warrant uncertain methods of treatment.

I especially solicit those cases that other doctors have been unable to cure. WEAKNESS—Weakness is nature's way of telling you that something is wrong. Don't drug your stomach or wear electric belts. Come to me by private and confidence. I will seek and cure the cause and quickly restore your vim and vigor. ACUTE DISCHARGES—Irritating and painful, are cured in from three to seven days. CHRONIC DISCHARGES—I cure every case in a few days, because I treat the affected spot.

SYNCHURE—My soothing, healing, absorbent remedies, applied directly to the inflamed, ulcerated and obstructed canal soon cures the worst cases. No cutting, no pain, no rough or injurious treatment. VARIOUS—If neglected, causes wasted, flabby organs before you know it, and puts you on the straight road to weakness. I cure every case. You take no chances, as you need not pay me one cent until you are cured. PROSTATE BLADDER AND KIDNEY DISEASES—My perfected local system never fails to heal, soothe and restore these organs. No man need despair.

## FEASIBILITY OF PLAN IS DOUBTED

Bankers Shy at Proposition to "Valorize" Cotton Crop of South.

NEW YORK, Nov. 3.—Bankers and cotton men are skeptical as to the practicability of the plan approved by this week's conference of Southern governors for "valorizing" the cotton crop with the assistance of an unnamed foreign syndicate. The plan is for the purchase of about 2,000,000 bales of cotton and its water-housing at central points for distribution when cotton prices have been put back to satisfactory levels.

It is declared by financial experts that if the scheme is to follow the lines more or less successfully established by Brazil in financing its surplus coffee crop, it would be necessary for the foreign bankers to have the credit of the cotton growing States behind their loan, as well as the cotton itself, as collateral. The credit of some of the principal cotton growing States has been seriously damaged by the repudiation of loans on bonds issued after the civil war, and many of which are still held by foreigners, who make periodical efforts to collect. For this reason, bankers say, great difficulty might be experienced in obtaining foreign capital on such a basis.

A. R. March, former president of the cotton exchange, declares that the scheme, even if put through, would have an effect on cotton prices opposite to that expected by its advocates. The accumulation of 2,000,000 bales of cotton, he thinks, would be a great bear argument, and as long as it was known to be hanging over the market, spinners could not be induced to bid prices up. The large carrying charges would be another factor against the carrying of surplus in warehouses long enough to tire out the consumer, who have proved themselves better able to hold out than the planters.

## GOLDEN JUBILEE IS CELEBRATED

The University of Washington Alumni Gather in Seattle.

SEATTLE, Nov. 3.—Celebration of the golden jubilee of the University of Washington was begun today with a rally of college alumni and a reception to the college women of the State. The university was founded in 1861, less than ten years after the settlement of the city of Seattle and Arthur A. Denny, a highly educated Tennessean, who afterward was Washington's delegate to Congress, was the founder of both city and university.

## HOLYOKE ESTATE IN COURT CONTEST

The Widow of Millionaire Not Content With Provisions of Will.

BANGOR, Maine, Nov. 3.—A contest in the California courts will be begun next month against the will of Frank H. Holyoke, a wealthy Bangor lumberman, who died in Pasadena, Cal., on October 3, 1900. She claims that the will is invalid because it gives Holyoke's domicile as Pasadena, Cal., whereas he declared in a divorce suit a few months ago that his home was in Bangor. The estate is valued at \$1,000,000. Several months before his death he separated from his third wife, who is the widow now contesting the will.

## MACHINIST KILLED IN FIGHT AT RICHMOND

PORTLAND, Nov. 3.—William A. Wortman, a union machinist, was shot and killed late yesterday by Burr Hicks, proprietor of a small machine shop. The shooting occurred in a store at Grant avenue and East Morrison street, after the men had fought their way from the sidewalk, where the quarrel commenced. Hicks responded in kind and the men clinched. They scuffled through the store entrance and half way back to the main aisle, when Hicks declares, Wortman made a motion as to draw a revolver. When his opponent did this, Hicks says he drew his pistol and shot, hitting Wortman in the abdomen.

## BUTTE CREEK WATER RIGHTS CAUSE OF WAR

COLUSA, Nov. 3.—The Central California Investment Company, which recently bought the famous Moulton ranch of 12,000 acres near here for colonization, now asks an injunction against the John Crocker Land Company, the Parrott Investment Company, the Leland Stanford Jr. University, the Balfour Guthrie Investment Company, the Butte Creek Consolidated Dredging Company, the C. F. Lot Land Company and sixty-one individuals to prevent them from taking more than 10 per cent of the water out of Butte creek, from which the plaintiff secures its supply for irrigation. The plaintiff company claims 90 per cent of the water. The defendants use the water in Butte county for irrigation. Many San Franciscans are concerned on both sides of the litigation and a long fight is expected.

## CROCKER HEIRS ACCEPT \$60,000 AS COMPROMISE

NEW YORK, Nov. 3.—John McLean Nash, treasurer of Columbia University, announced yesterday that the suit brought in the Superior Court by three stepchildren of the late George Crocker to get possession of the estate at 1 East Sixty-fourth street, which was left to Columbia to establish a cancer research fund, has been settled. The plaintiffs will get \$60,000.

The suit was brought by Alexander H. Rutherford and his sisters, Mrs. Kohn Langdon Erving and Mrs. Philip Kearney, on the ground that the house and its contents belonged to their mother and was only left to Crocker for life. They alleged that he got them to assign their interest in the house to him by promising to make provision for them in his will. He gave them only \$100 each.

The property is valued at \$1,000,000 and the bequest to Columbia included the contents of the house.

## DENVER SEEKING TWO POLITICAL CONVENTIONS

DENVER, Nov. 3.—A concerted movement on the part of the Denver citizens to raise funds for the purpose of securing both the Republican and Democratic conventions for this city started today in definite form. A. L. Mohler of Omaha, president of the Harriman system, said that he would start a contribution list with \$2500, and others have expressed willingness to contribute toward the fund necessary to send delegations to call upon the Republican and Democratic national committees.

## The Bloom of Youth to the Aged Cheek

(From Eastern Style Reporter)

Even with advancing age it is an easy matter for women to quickly regain that charming smoothness and delightful tint and youthful bloom to their age-marrowed or furrowed cheeks. Merely dissolve a small package of mayatone in one-half pint of witch hazel, then freely apply this lotion to the face, neck and arms, and massage lightly until it disappears.

Continued using will gradually banish wrinkles, sallowness and blotches and give to the skin a delightful clearness and smoothness. The mayatone lotion is soothing to tender skin, and its use discourages the growth of hair or fuzz, and removes pimples, blackheads and other facial blemishes. Such delightful results follow the use of the mayatone lotion that artificial aids to beauty are not required.

## HIGHWAY COMMISSION ARRIVES AT CAPITAL

SARATOGA, Nov. 3.—The members of the State Highway Commission and A. B. Fletcher, highway engineer, returned yesterday after an eight days' tour from Sacramento to the coast and held a conference with Governor Johnson. This trip is one of many that the Commission has mapped out for the purpose of selecting the State highways to be built under the \$13,000,000 bond issue.

They expect to start preliminary surveys and work in about six weeks. Within a week or ten days they will start another tour south to Los Angeles. Whether they will follow the valley route or the coast route has not been determined.

## MAILS PLUNDERED BY JANITOR.

SEATTLE, Nov. 3.—Nathaniel C. Lewis, janitor of the United States postoffice, was arrested yesterday, charged with robbing the mails. After his arrest Lewis confessed to postoffice inspectors that he had stolen jewelry, clothing and small articles. He looted a silverware package this afternoon while he was under surveillance, and put the plunder in his locker.

## BRINGS SECOND SUIT FOR MARITAL FREEDOM

PETALUMA, Nov. 3.—Dr. Smith McMullin, a prominent physician of this city, was charged with cruelty in a divorce complaint filed in the superior court yesterday by his wife, Emma Harris McMullin. About a year ago Mrs. McMullin went to Reno and there secured a decree from the physician, but later learned that she had not been in Nevada a sufficient length of time to secure legal residence there, and thus her decree was invalid. She returned to Petaluma recently and sued her husband and a woman there for possession of some furniture, which the wife claimed was her personal property. Last Saturday this suit was dismissed in the justice court after Dr. McMullin had paid his wife \$100 and had surrendered the furniture.

The divorce suit in Reno was sensational in the extreme, but the complaint filed here contains nothing sensational, simply alleging cruelty on the part of the physician.
